AEC11446 - Using Assemblies and Design Line Templates

Lyle Janda
Applied Software: FAB Specialist

Scott Hendricks
FAB Specialist

Class summary

- Learn how to build and product list a subassembly for use within Fabrication CADmep software and Fabrication ESTmep software. We will look at scripted button assemblies and the reporting of assemblies. This course will also cover how to use, make, and transfer Design Line Templates to help create models more quickly.

Key learning objectives

At the end of this class, you will be able to:

- Learn how to build and create a product listed Sub Assembly
- Learn how to build a scripted button assembly
- Learn how to create a design line template
- Learn how to use a Design Line Template
