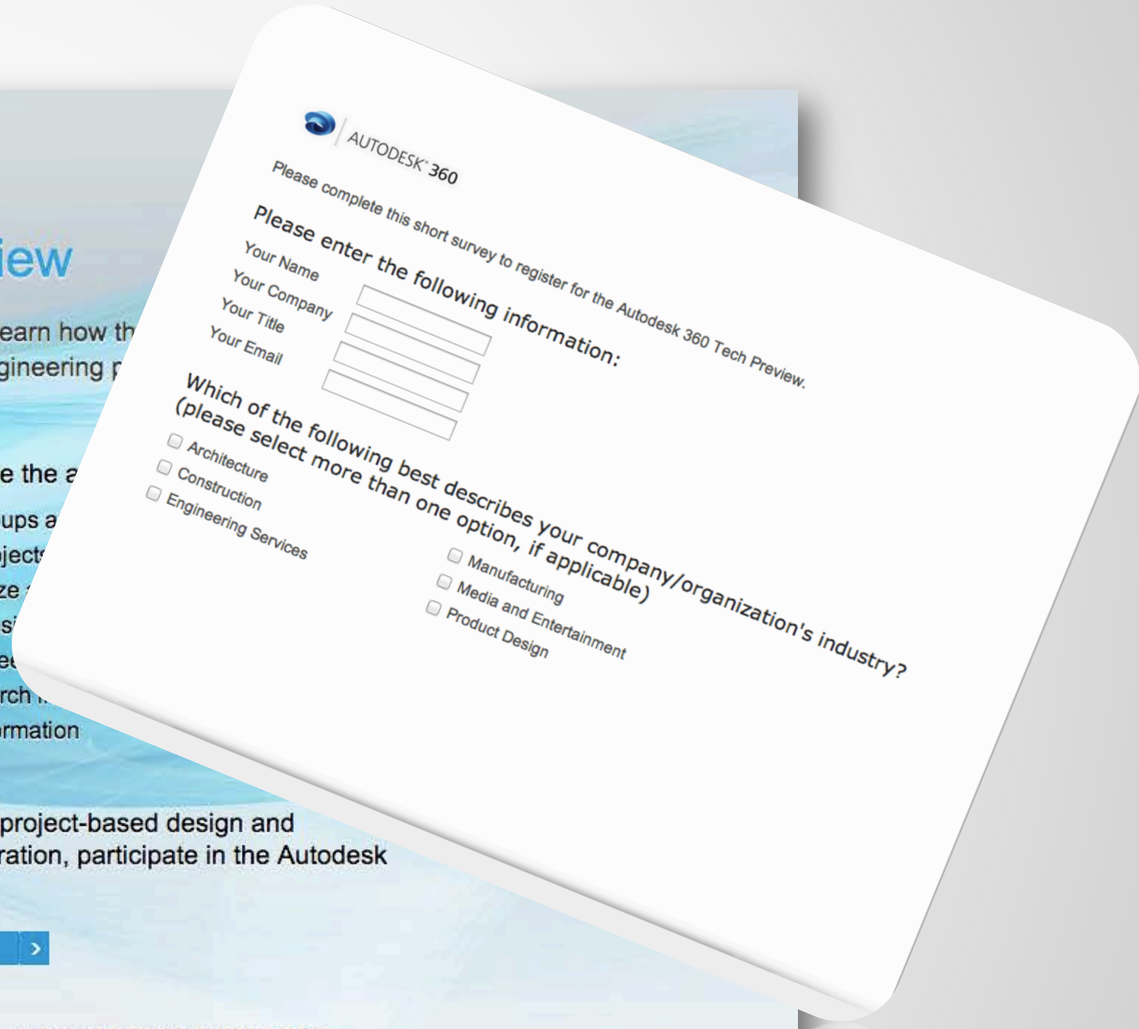
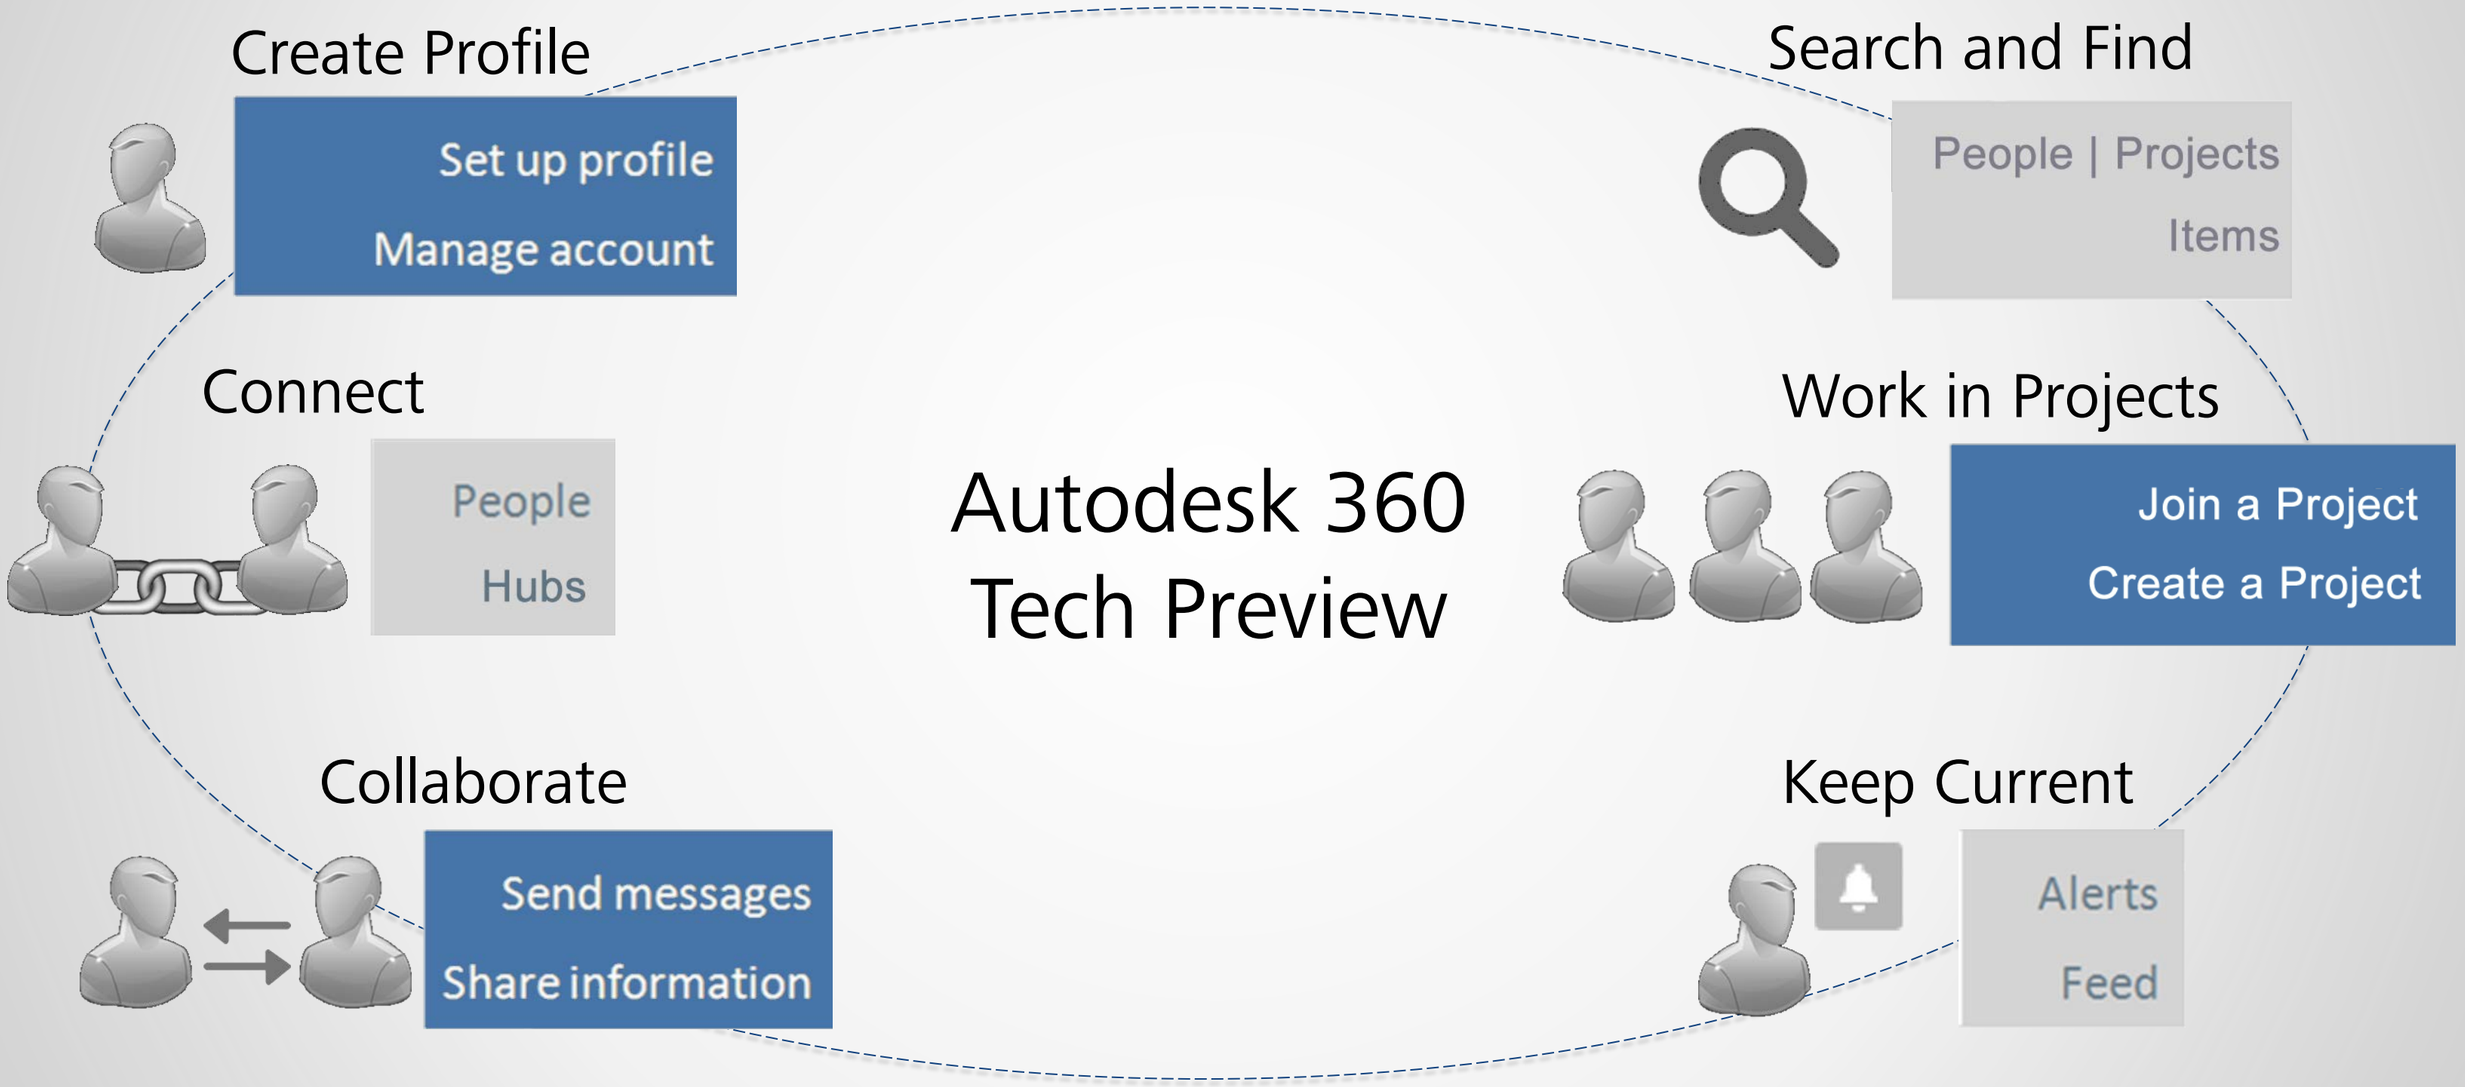
Autodesk 360 Tech Preview: The List



New Autodesk 360 Tech Preview – Class Summary



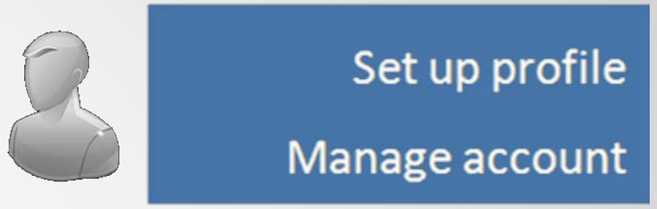
Autodesk Confidential Information

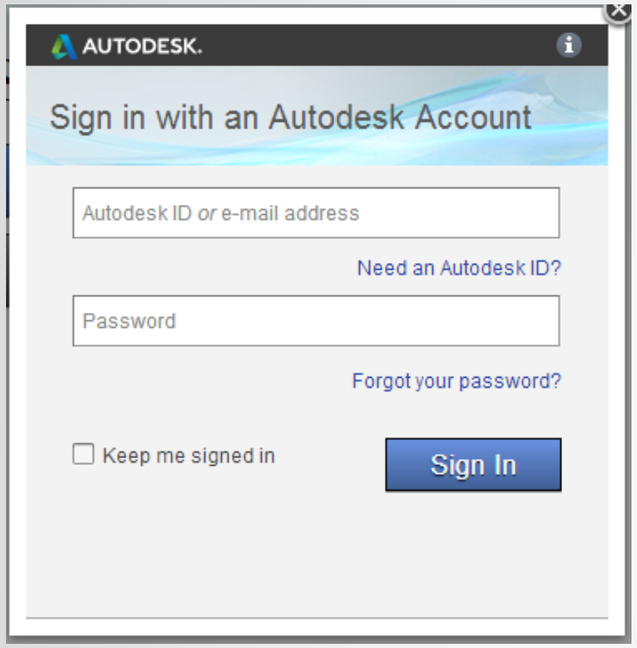
Key learning objectives

At the end of this class, you will be able to:

- Explain what Autodesk 360 Tech Preview is
- Use tools within Autodesk 360 Tech Preview
- Share files in Autodesk 360 Tech Preview
- Collaborate with Autodesk 360 Tech Preview

Create Profile

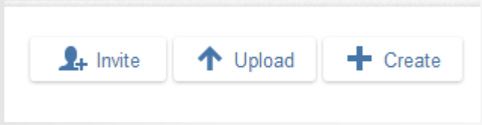




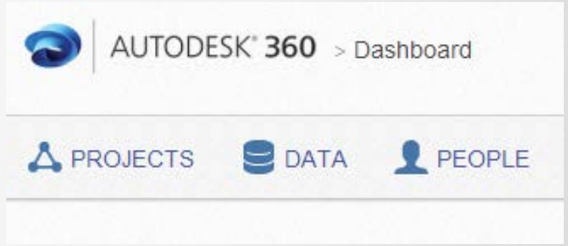
- Sign in using your Autodesk 360 account. Don't have one yet? Sign up and create an account now at Autodesk 360 (*https://accounts.autodesk.com*)
- Create your profile to provide both personal and professional information, access content as well as communicate and collaborate with a people.
- You can link your profile with your LinkedIn account, if you have one
- You can edit and update your profile, account and settings at anytime after the initial setup

Connect

- Autodesk 360 Tech Preview allows you to connect to your co-workers in your personal hub.
- Once you create a project you can invite coworkers to become a part of that project and allow them to view information and keep track of project activities



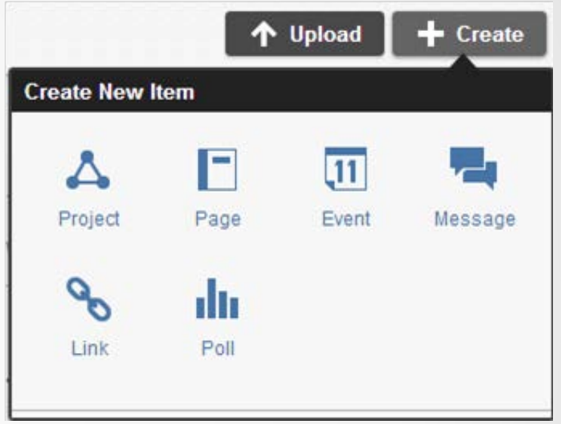
- As a part of a personal hub you can see:
  - Projects owned by you
  - Projects you've been invited to from other personal hubs



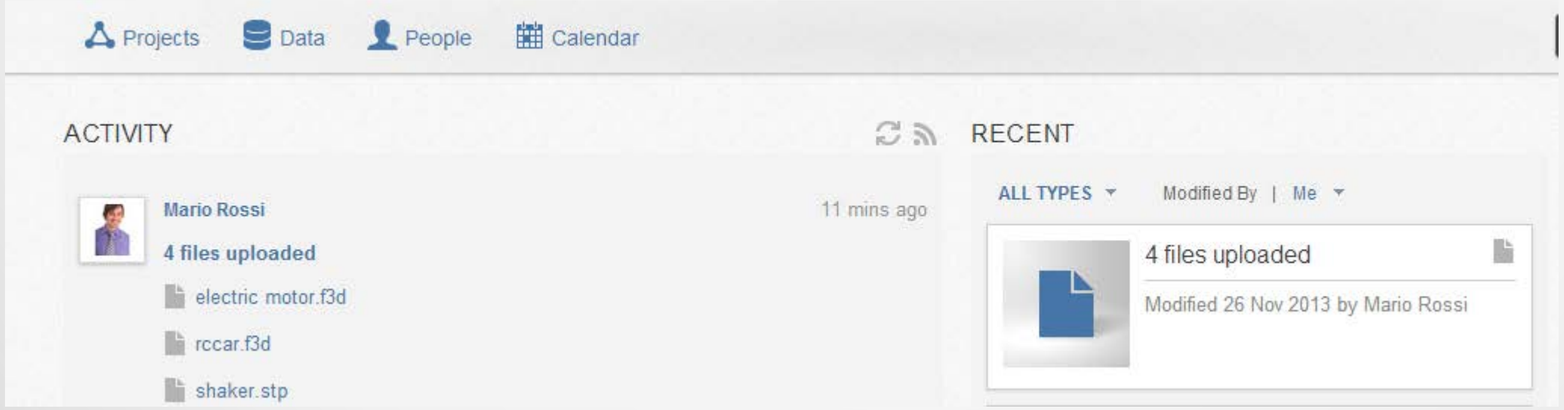
Collaborate

Autodesk 360 Tech Preview allows you to collaborate with your your co-workers *by:*

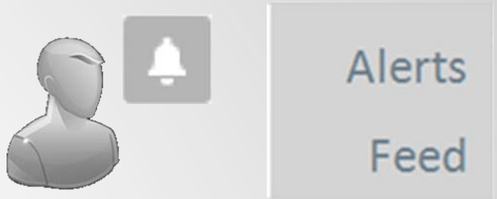
- *Communicating and sharing information using:*
  - *Files, messages, events, links, polls or wikis*



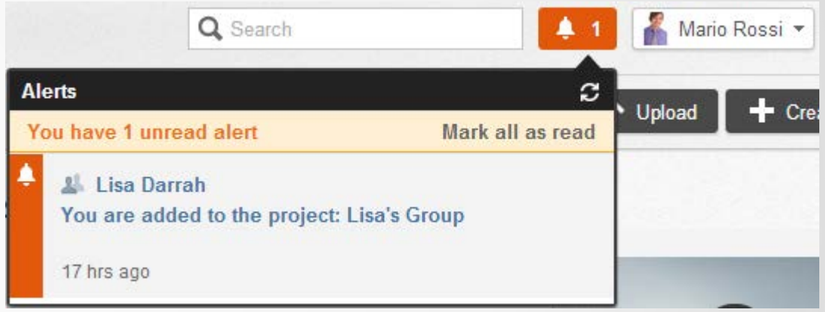
- *Responding to these through:*
  - *Discussions, and providing feedback, revising content, and uploading new versions of files.*



Keep Current



- *Autodesk 360 Tech Preview provides several ways for you to keep up to date with activities that are specifically meant for your attention:*
  - *Public activities within the hub*
  - *Activities and items that you are particularly interested in.*
- *Alerts*
  - *Items that are posted for your personal attention are received as alerts in your personal hub*



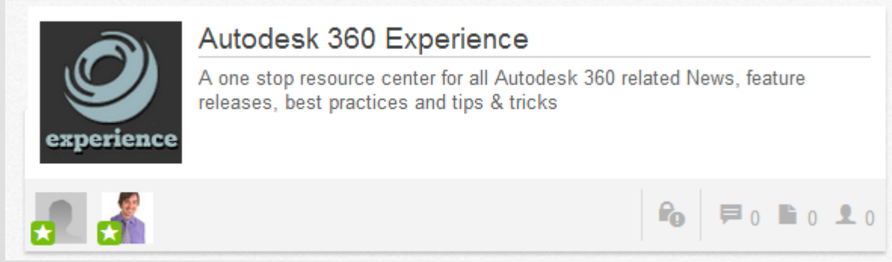
- *Activity Feed*
  - *The Activity feed provides a live update of all public activities within a hub. The newest activity or the most recently posted item appears on the top.*

Work In Projects

Join a Project

Create a Project

- *Projects provide a way for you to easily communicate and collaborate with people you regularly work with or share interests with. These may be:*
  - *People within your department or company unit*
  - *People in other departments within the company,*
  - *People outside the company, such as vendors, partners, and customers.*
- *You can bring all your interactions with the people your regularly work with to one place by creating a project.*

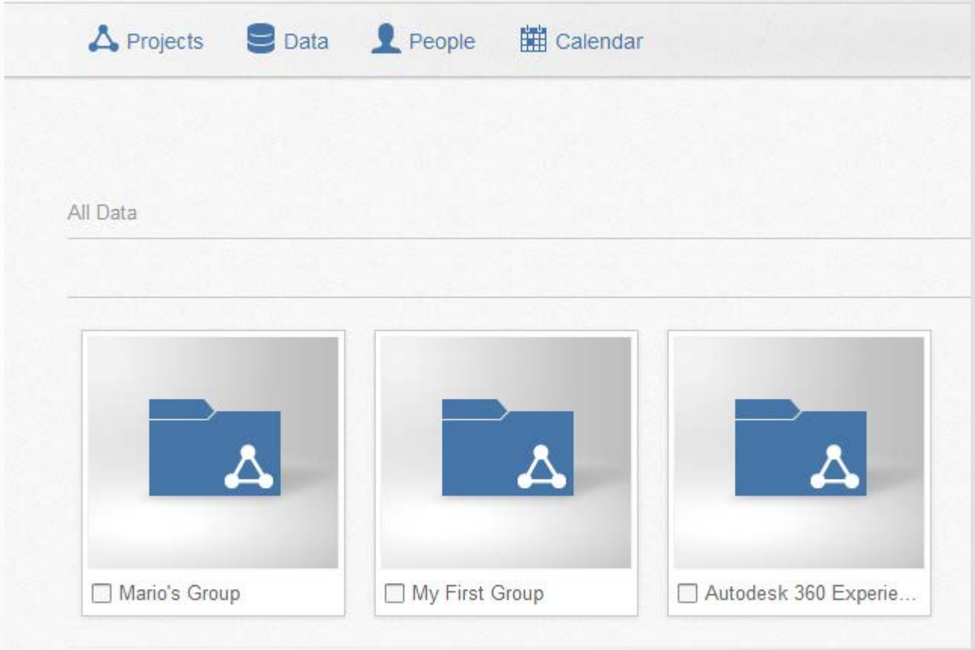


Data

Join a Project

Create a Project

- *The Data page provides a way for you to easily store and share information with viewing options based on your preference.*



- *You can quickly find information and view the details and options about files.*
- *The integrated viewer allows you to interact with the files based on the options available.*

Search and Find

You can search for people, items, and projects using the Search box.

The Search box auto suggest feature which populates results for people and projects that match names by initials with a link to View all results.

Once the search finds items, you can filter those items based on different categories.
