

Autodesk Buzzsaw

Anatomy of a Successful Buzzsaw site

Monica Melendez

A&C Business Systems, Marriott International

Learning Objectives

At the end of this class, you will be able to:

- Understand Buzzsaw's out-of-the-box tools and the implications of folder structure/ permissions/ nomenclature
- Design an Autodesk Buzzsaw Administrative work-flow
- Leverage the power of Buzzsaw's "companion" applications and API's through Buzzsaw's "WebDAV" protocol
- Learn what's coming next, from a Systems Developer perspective

Class Summary

Autodesk Buzzsaw provides a flexible means to introduce the power of “the cloud” into any existing workflow.

This presentation will cover a combination of best practices, useful utilities, learning and training strategies, and ideas to maximize adoption across various disciplines and skill levels. If you have an existing Autodesk Buzzsaw site or you’re interested in leveraging the benefits of Autodesk Buzzsaw and its companion programs, you’re in the right place.

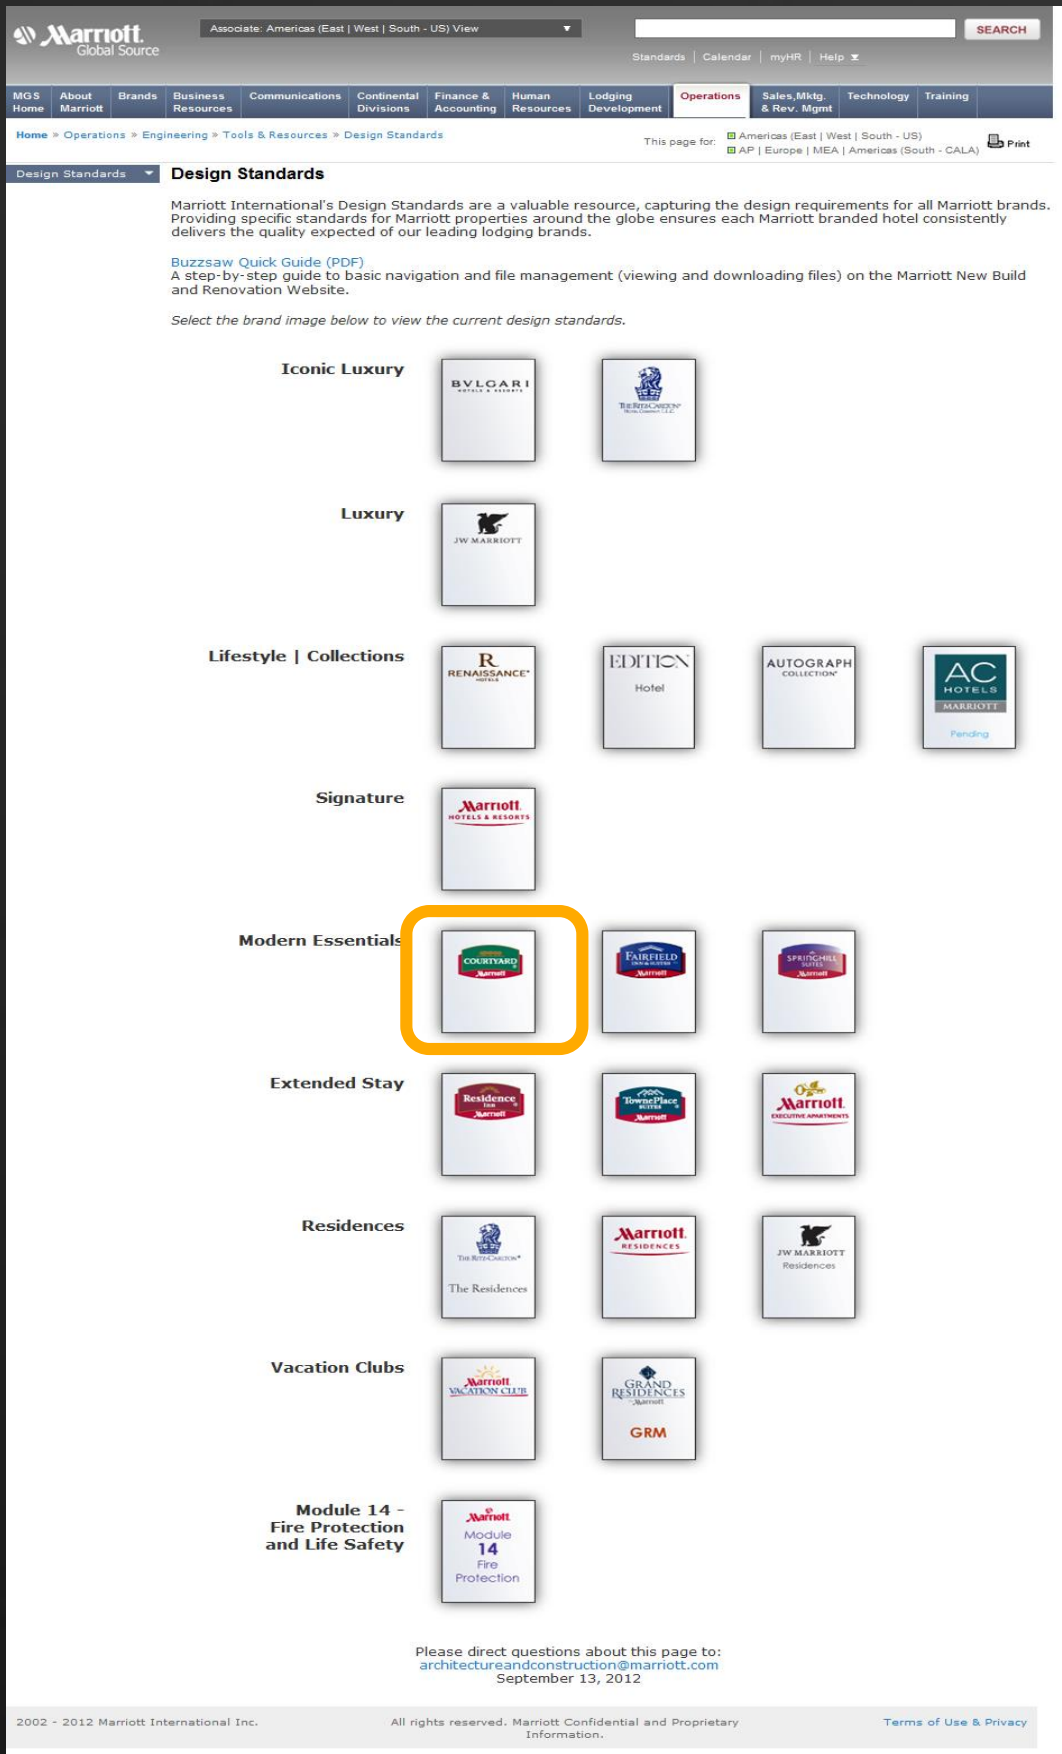

Understanding Buzzsaw’s “out-of-the-box” Tools

“Public User” Profile: When To Use It

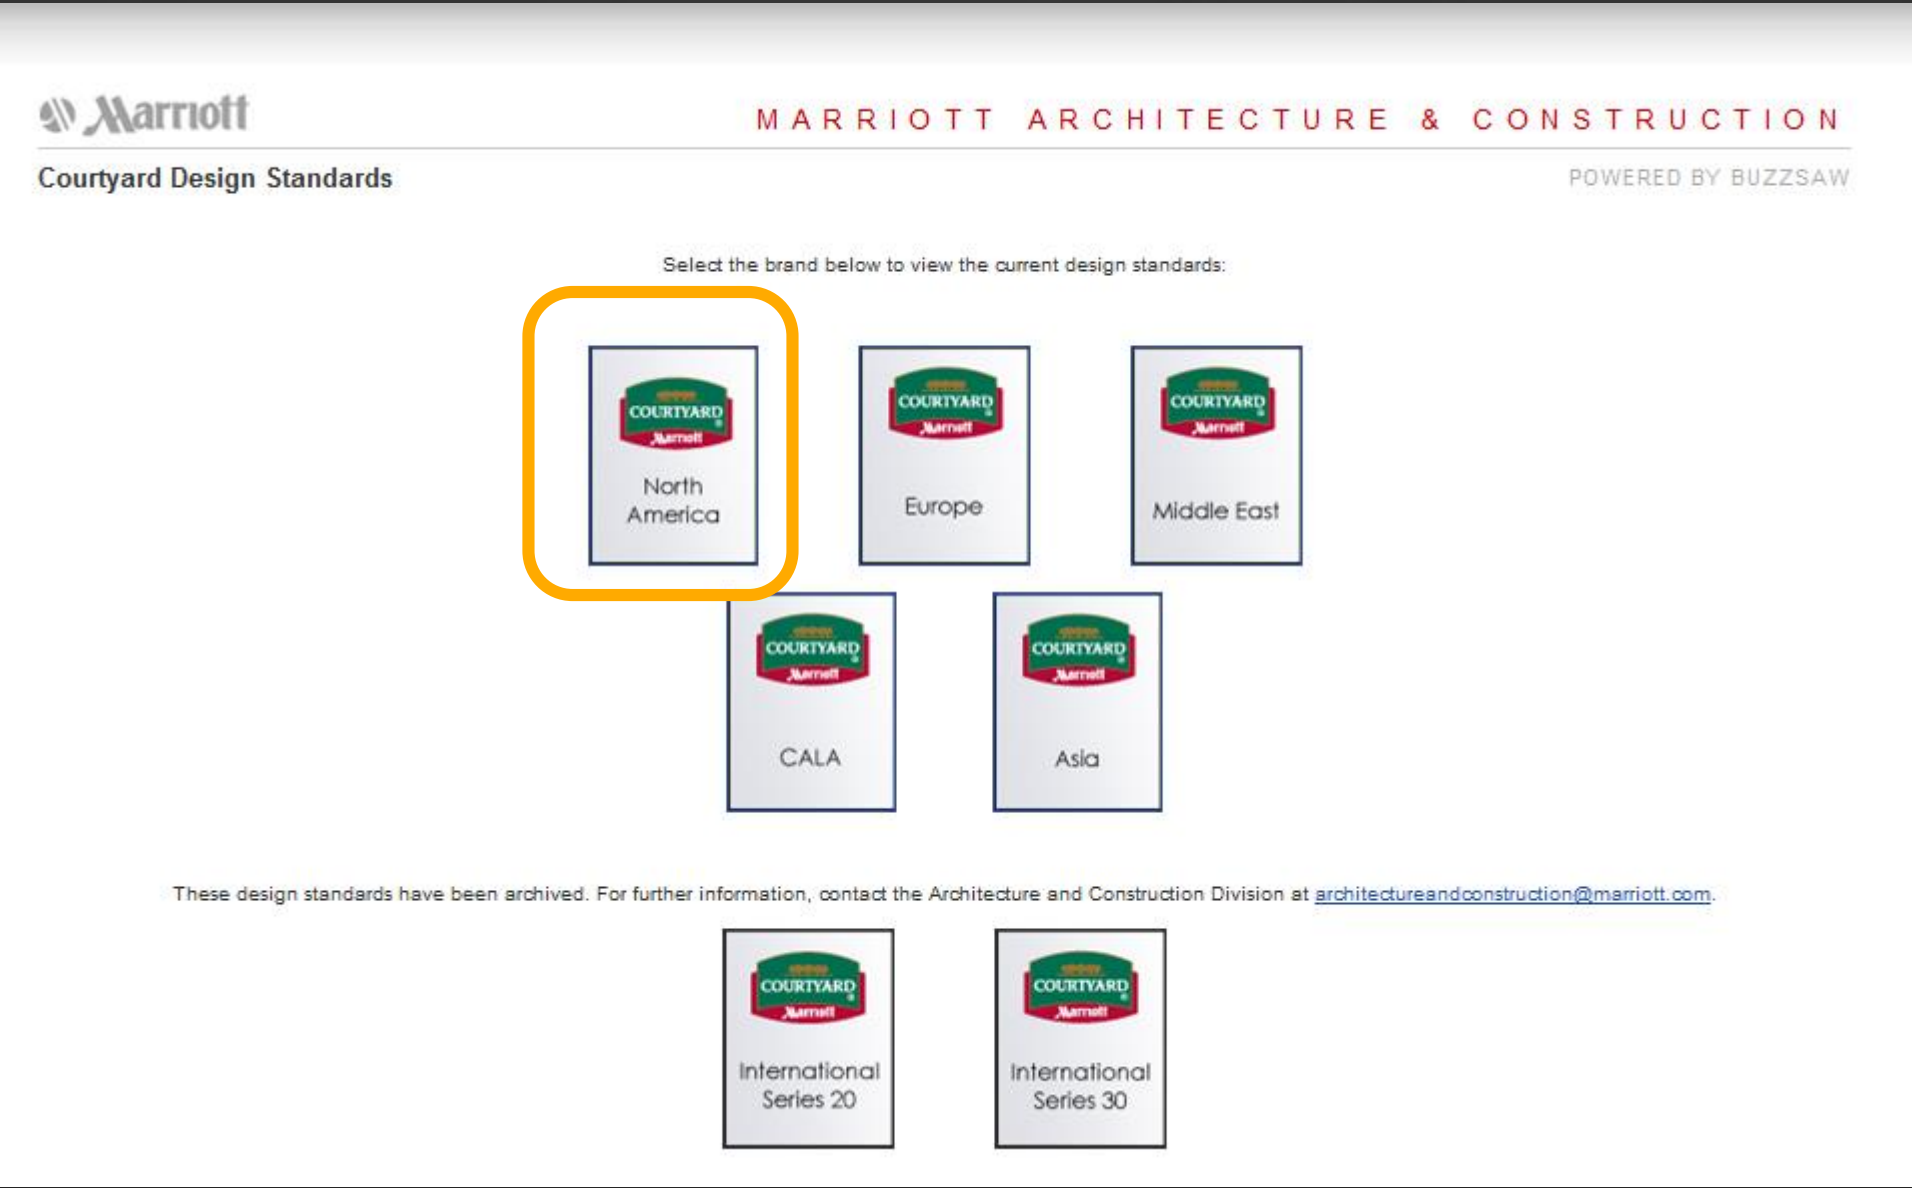

- What is the “Public User”?
 - The “Public User” allows access to a Buzzsaw site for a non-registered user.
 - Anything to which the “Public User” has access is not secure, although it’s not “discoverable” through a Google search.

5,000 Licenses = 100,000 Users with access

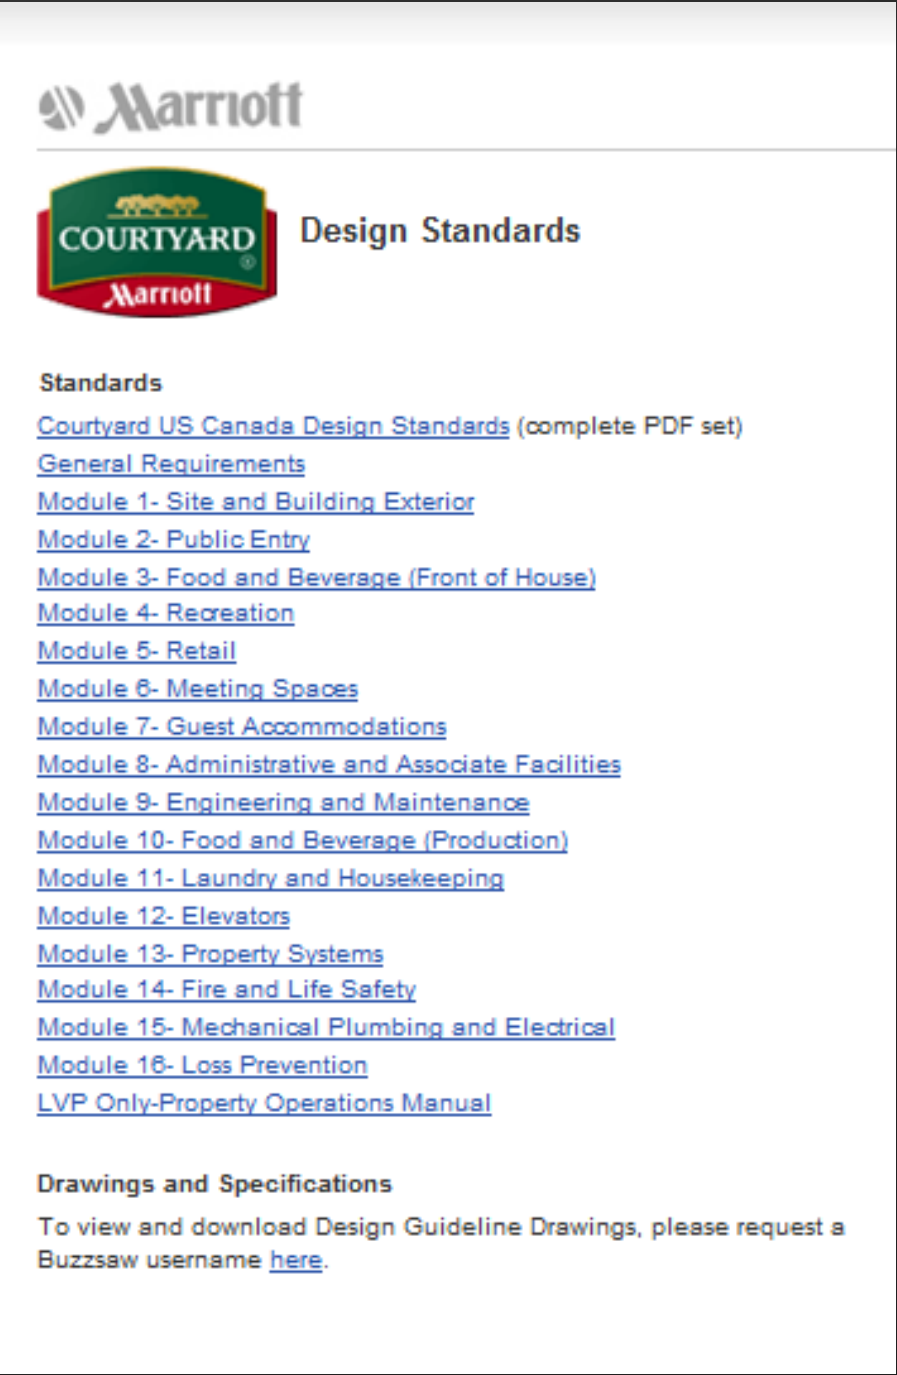

Buzzsaw from Marriott's Extranet

Page from Marriott's extranet site.

pages sitting on Buzzsaw.

This page sits on Buzzsaw. Each
links lead to the PDF of the Design
Standard document

The Buzzsaw URL Hyperlink

- This is not the Buzzsaw “Link”
- Coding to force the link to launch within an active Buzzsaw session vs. coding to launch a new instance of Buzzsaw.
- **Typical COPY URL link:**
 - `https://projectpoint.buzzsaw.com/Marriott/B%29%20Design%20Standards/Marriott%20Hotels%20and%20Resorts%20-%20International/1%29%20Current/A%29%20Design%20Standards?public`
- **Engineered COPY URL link:**
 - `projectpoint://Marriott/B%29%20Design%20Standards/Marriott%20Hotels%20and%20Resorts%20-%20International/1%29%20Current/A%29%20Design%20Standards`

**ACE
(A&C Consultant Exchange)**

Keep your company information up-to-date here

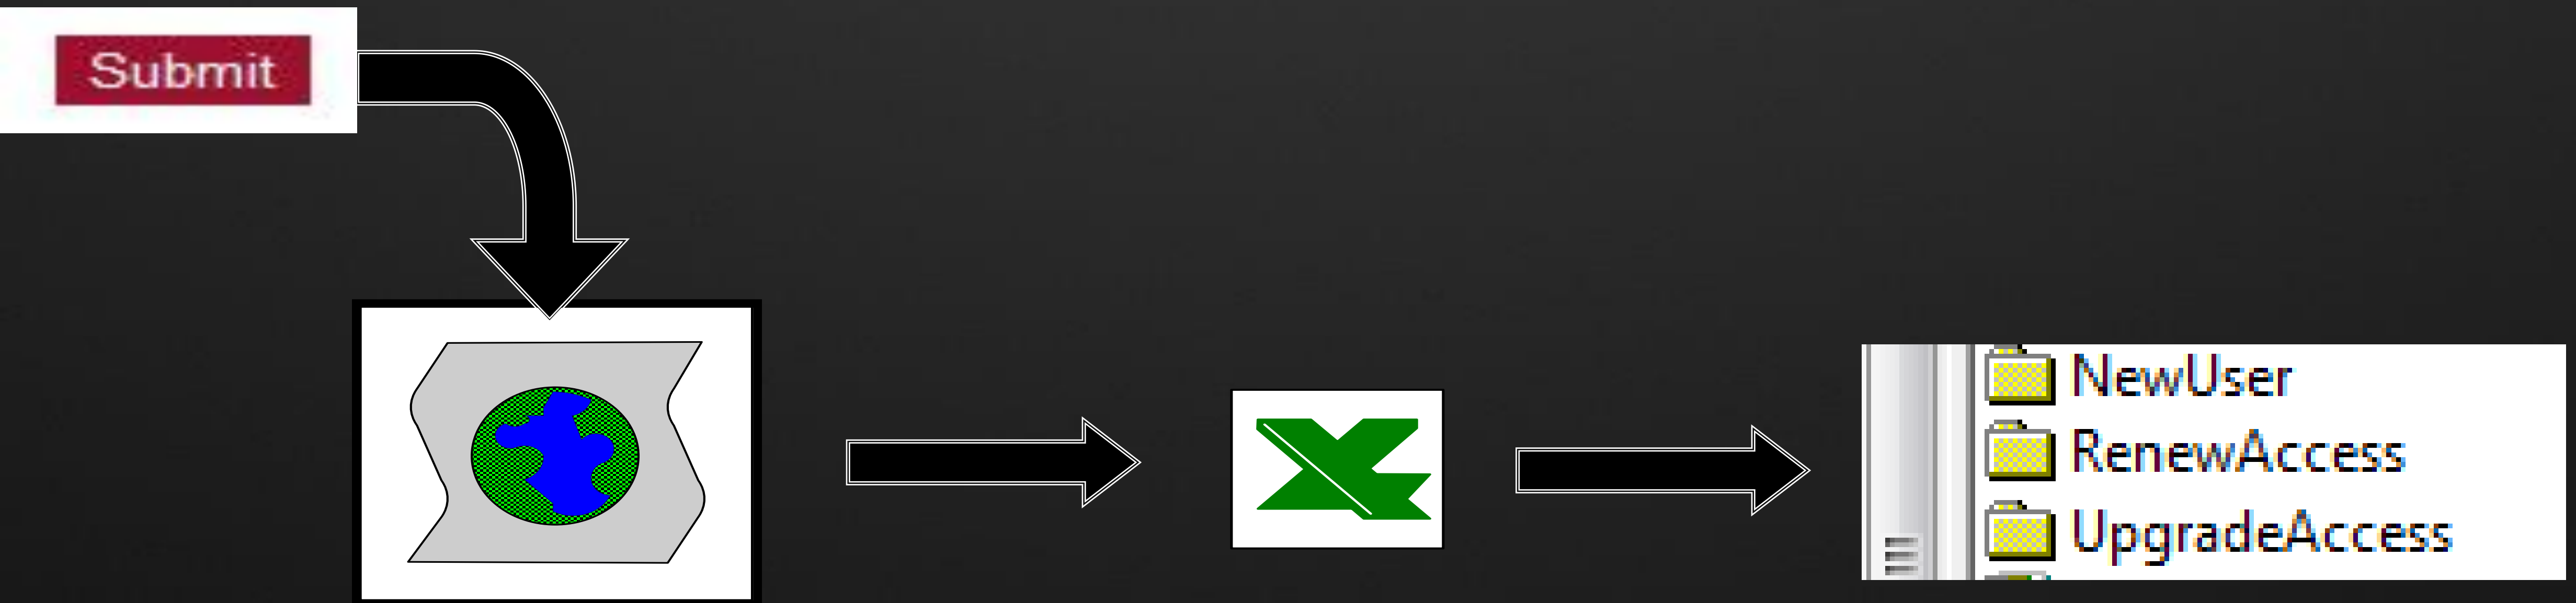

POWERED BY BUZZSAW

Requested Access – The API

“Submit” button kicks off an **Application Programming Interface (API)** which

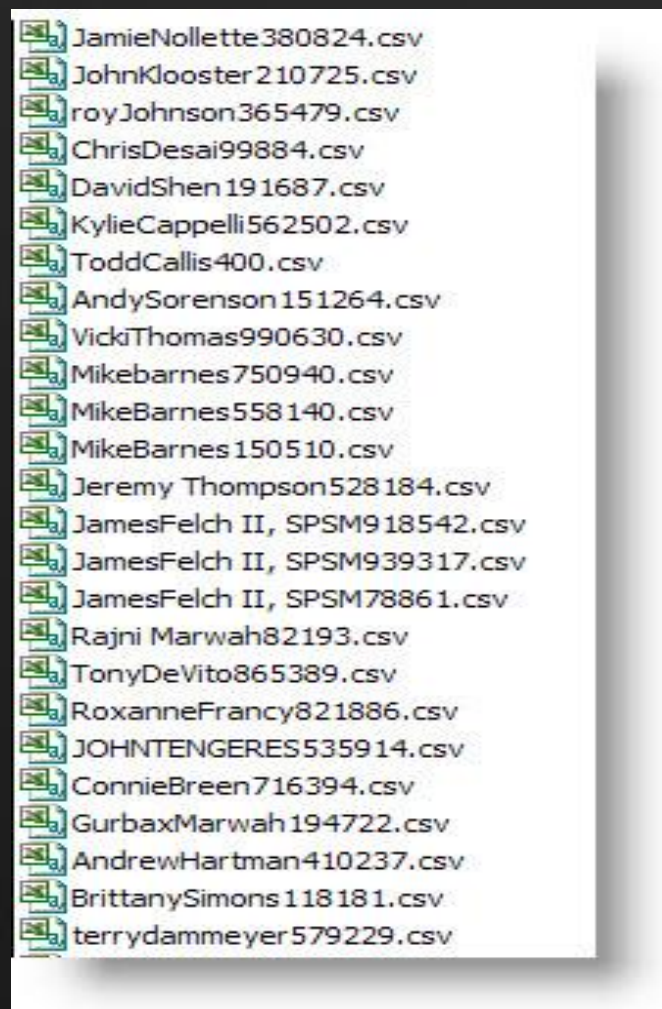

- Turns the data from the request form into a CSV file and
- Drops the CSV file into the appropriate folder on Buzzsaw
(based on the Design Standards to which the user has requested access)

Requested Access – the API

The Buzzsaw Administrator will

- Download all new CSV files from Buzzsaw
- Combine approved requests
- Upload the CSV file with approved registrants into Buzzsaw as users

Determine Project Feasibility

- Internal Access Only
- Pre-Committee Working Area

INTERNAL/EXTERNAL ACCESS

Development
Committee Approval

New Build and Conversion

- Internal/External Access
(*except to "Internal Tracking")
- Design And Construction Working Area

INTERNAL ACCESS ONLY

Three Months
After Opening

Property Archive

- Internal Access Only
- MARSHA Added to folder name
- Renovation Folder Added
- Operations Folder Added

Paper Archives

- Scanned drawings for all Marriott hotels in the world.

Renovations

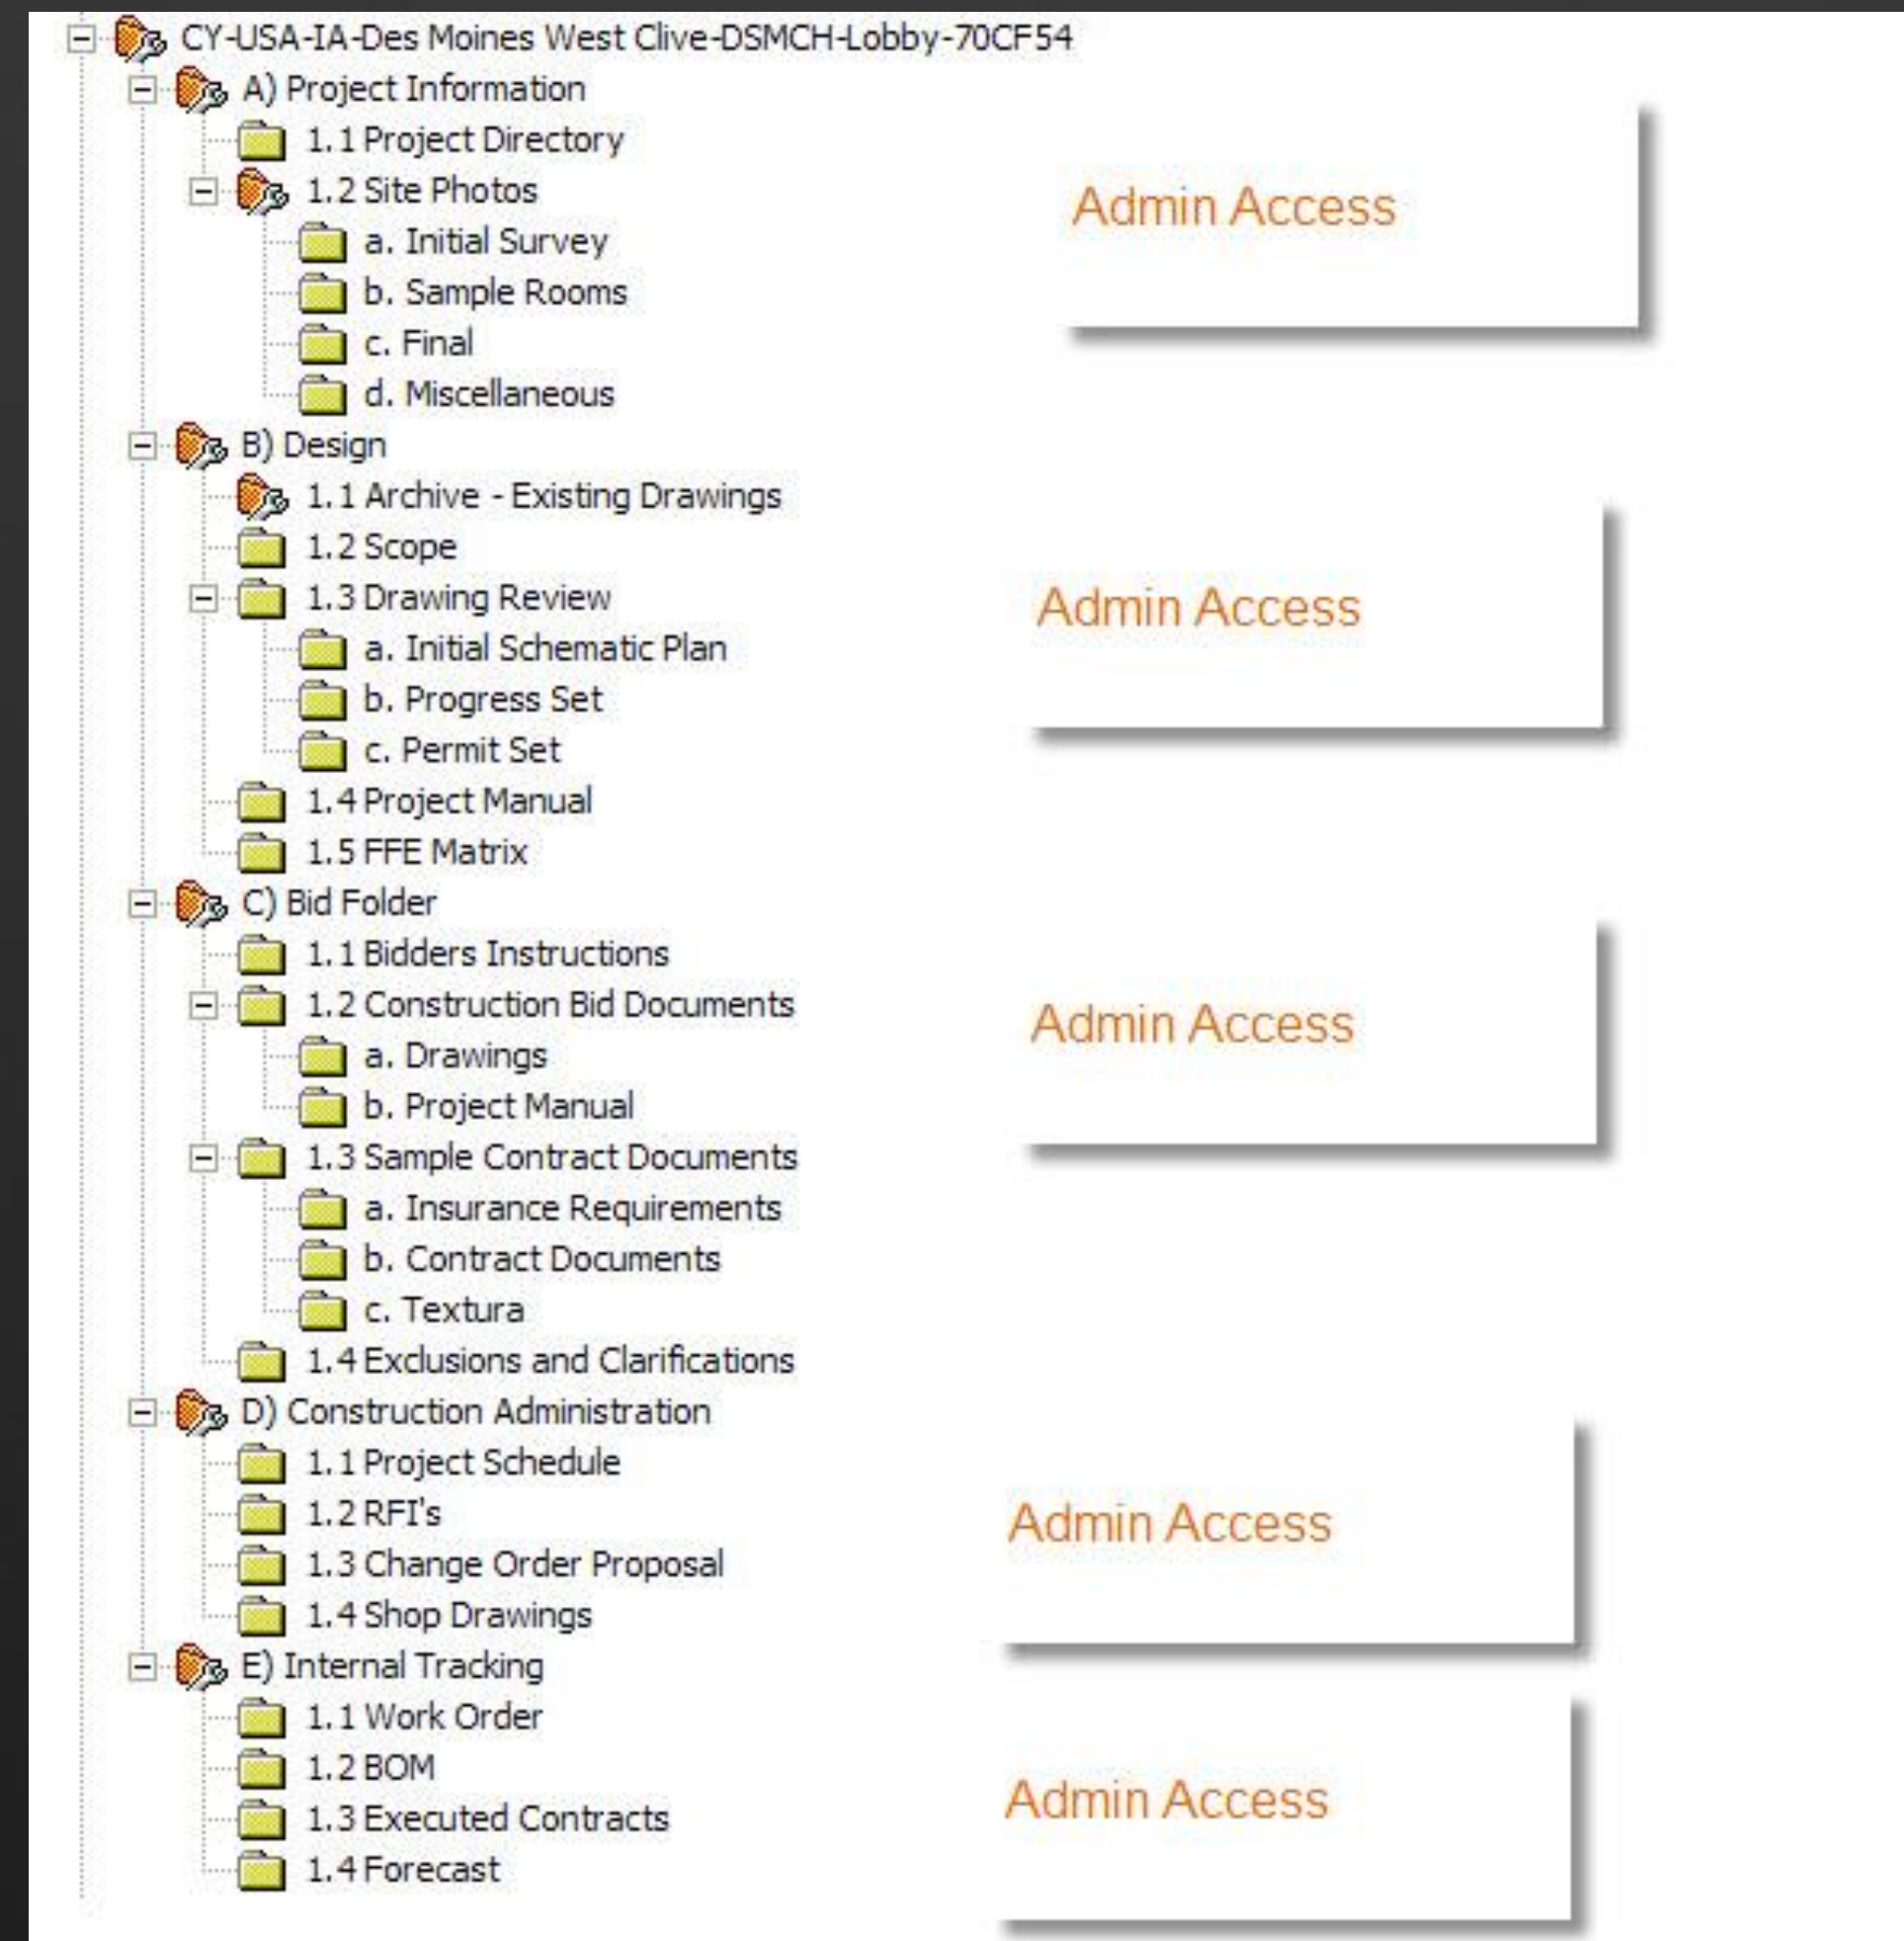

- Internal/External Access
- Files Copied From Project Archives
- Design and Construction Project Working Area
- Final Documents Moved to
Archives

Groups Overview

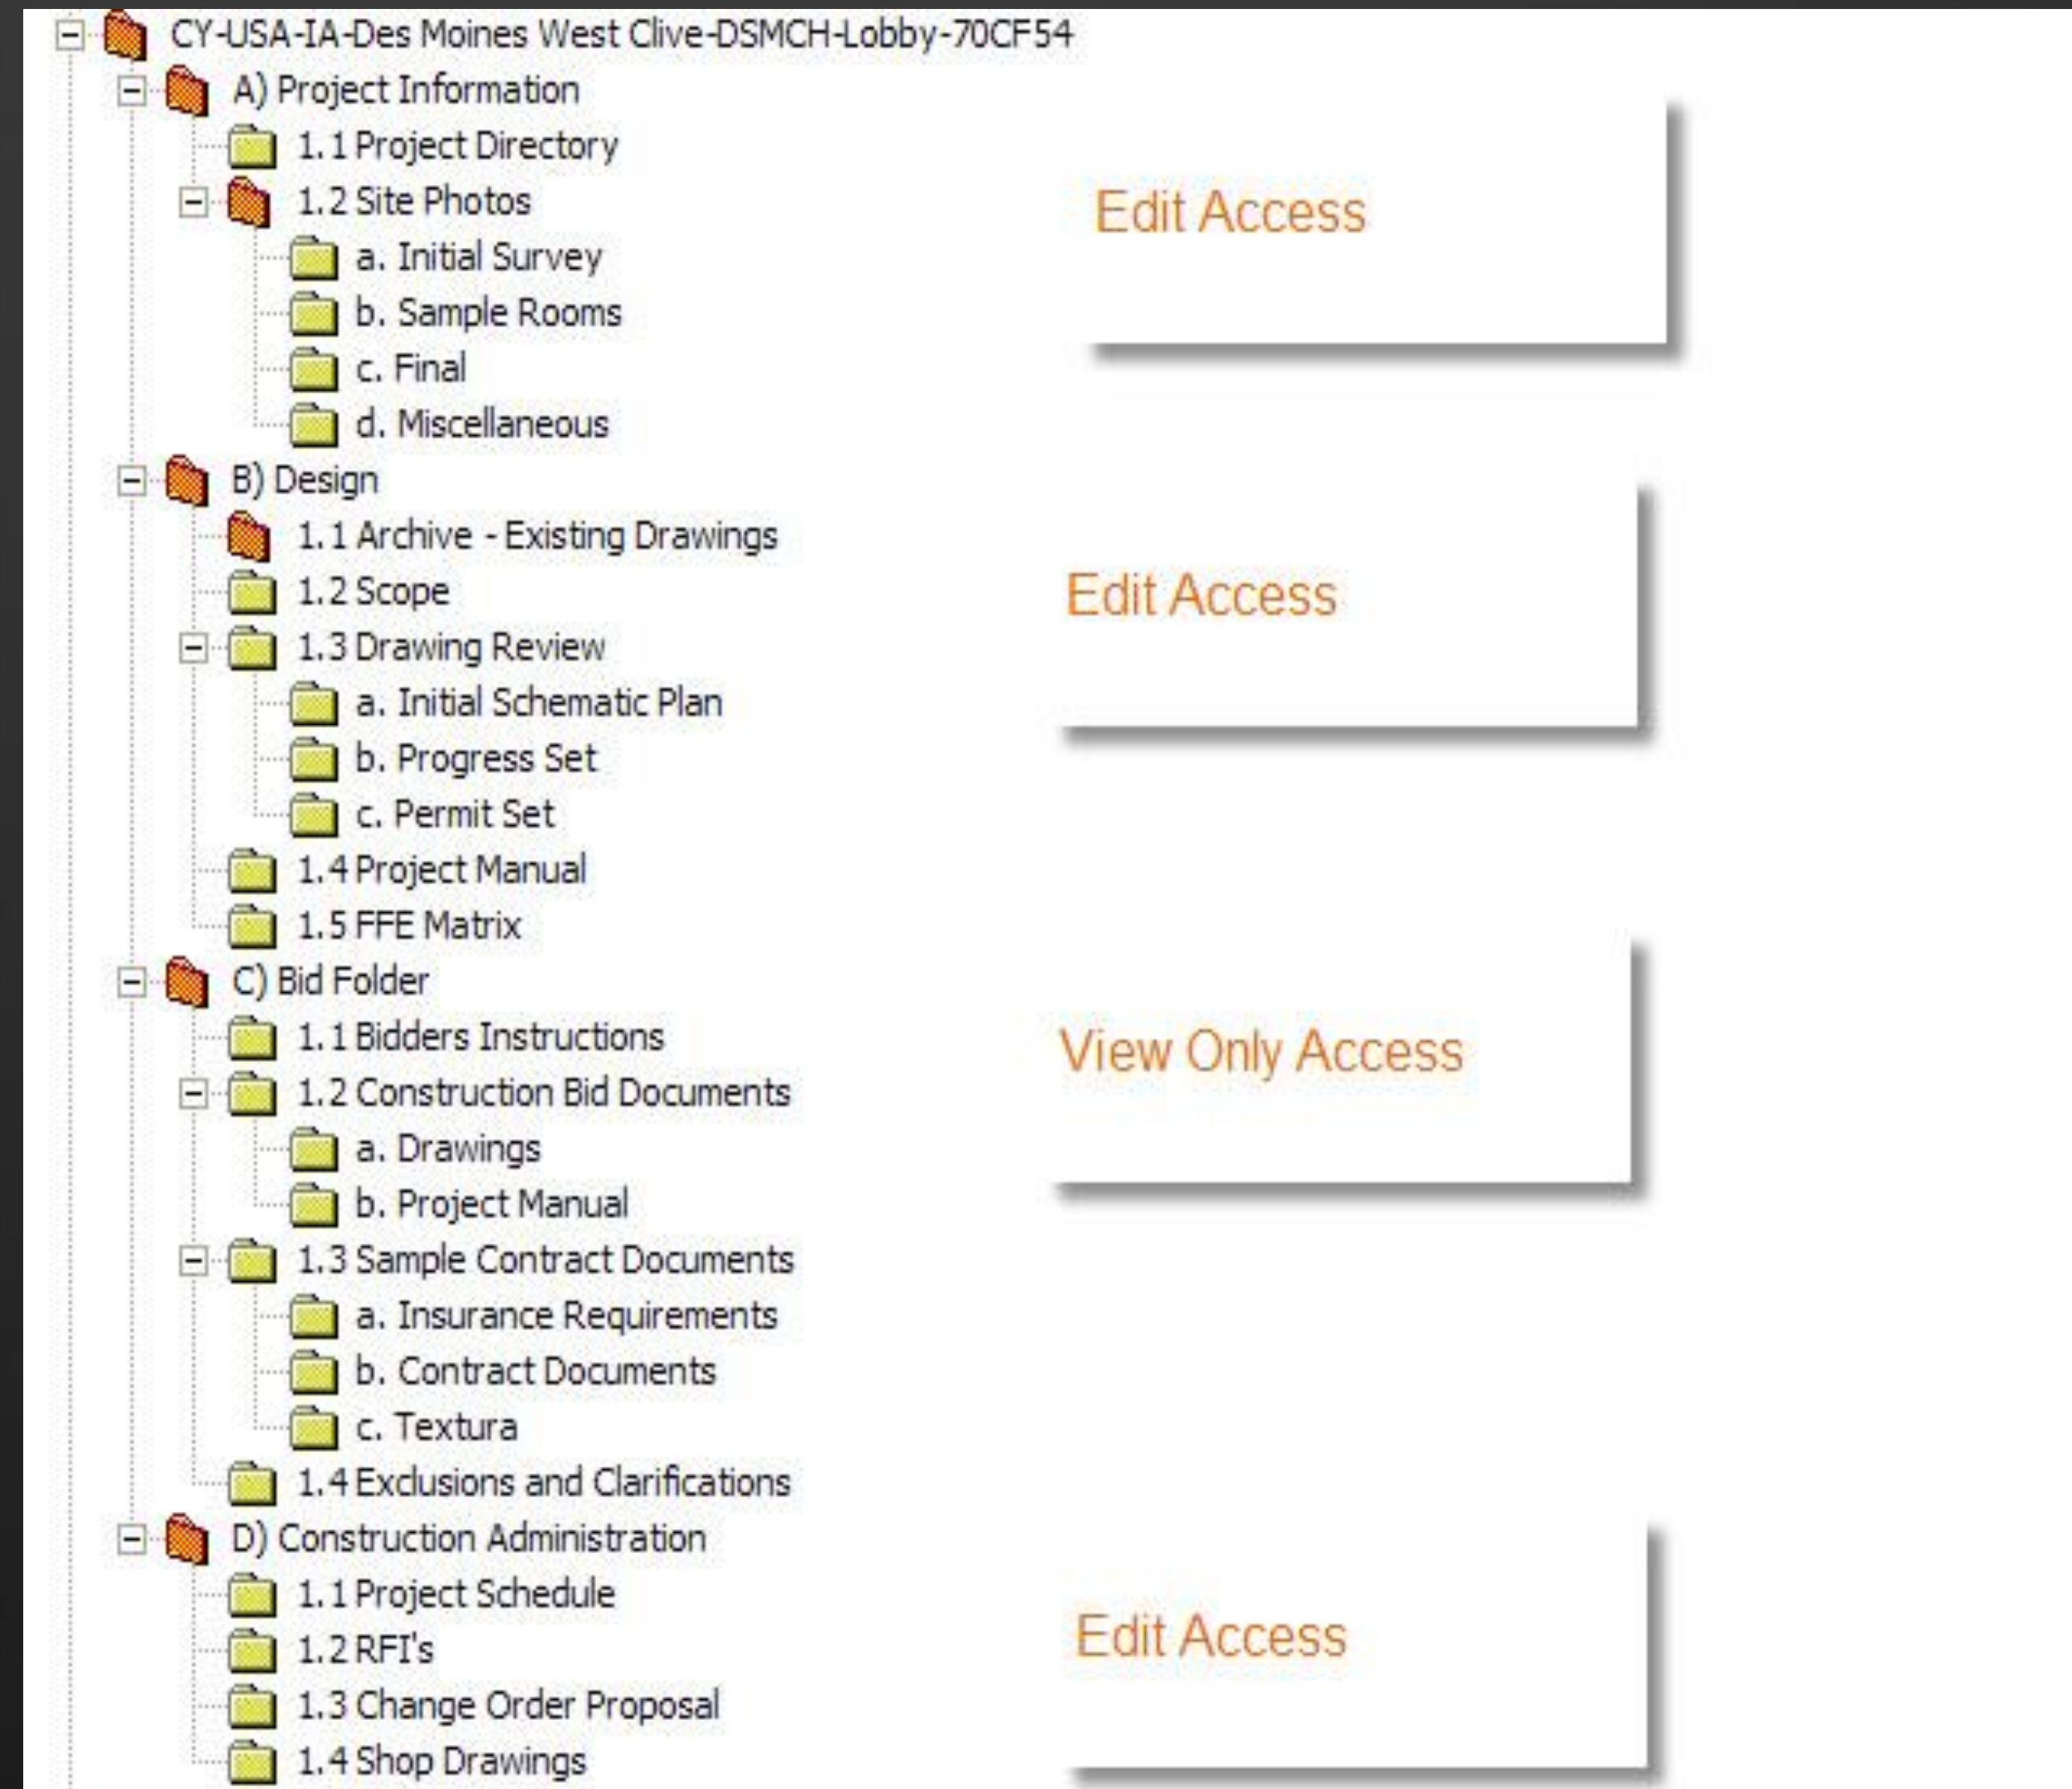

- **Buzzsaw Group** (All Users)
 - Naming Convention = 1 + All Users
 - Permissions = View Only rights to opening splash page and tutorials
 - Members = All members
- **“Brand” Groups**
 - Naming Convention = 2 + Full Brand Name + “Internal” or “External”
 - Permissions = **View Only rights** to all Design Standards for that Brand
 - Members = “Internal” by default, only MI Associates in need of that Brand’s documentation
= “External” by default, all Owners and outside consultants approved to received that Brand’s documentation
- **Ownership Groups**
 - Naming Convention = OASIS “**Account**” Name
 - Permissions = **Edit rights** to all Projects Owned
 - Members = By default, all members of the Ownership Group
- **MI Groups** (Product Development, Special Initiatives, Early Adopters, etc.)
 - Naming Convention = 1+ A&C Department Name or “Brand” Project Admin
 - Permissions = View Only rights
= Edit Rights
= Admin rights
 - Members = All members established by MI Associate
- **Marriott Managed Renovations** (Marriott Consultants, Bidders, Architects/ID/Draperly Installer/ etc.)
 - Naming Convention = Brand-Country-State-OASIS Property Name-MARSHA-Account Number
 - Permissions = View Only rights
= Edit Rights
= Admin rights
 - Members = All members established by MI Associate
