Class summary

This course will introduce a workflow of live Building Information Modeling (BIM) coordination using BIM 360 Glue software and Navisworks software on a megaproject

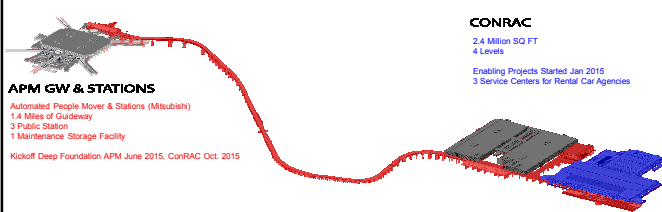

Key learning objectives

At the end of this class, you will be able to:

- Set up a project in BIM 360 Glue
- Run coordination with Navisworks and BIM 360 Glue
- Know how to deploy workflows for cloud-based live coordination
- Use BIM 360 Glue as a tool for communicating with the design team

Tampa International Airport APM & CONRAC
