## Command Recommendation

How to intelligently highlight commands that users might learn next

Users	Line	Arc	Circle	Dimension	Plot
User 1	Yes				Yes
User 2		Yes	Yes		
User 3			Yes	Yes	Yes
User 4	Yes	Yes	Yes		Yes
User 5	Yes				Yes
User 6	Yes			Yes	
User 7	Yes		Yes	Yes	Yes
User 8	Yes		Yes	Yes	Yes
User 9		Yes	Yes	Yes	Yes
User 10	Yes	Yes	Yes	Yes	
User 11	Yes	Yes	Yes	Yes	
User 12	Yes	Yes	Yes	Yes	
User 13	Yes			Yes	

Command Name	Rating
MEASUREGEOM	2.9
AUTOPUBLISH	2.7
3DFACE	2.6

COMMAND RECOMMENDATION

Have you considered learning the MEASUREGEOM command?

Based on the command you use, others with similar usage also use the MEASUREGEOM command.

## Macro Recommendation

Automate repetitive tasks with customer macros

**Session Commands**

- BREAKLINE
- MOVE
- LAYER
- DIMSTYLE
- QDIM
- LINE
- LOFT
- LINE
- CHAMFER
- CHAMFER
- CHAMFER
- LINE
- UNDO
- END

Description	Macro Sequence	Score
Rectangular Revision Cloud	*C=C_LAYER_M0=PL_REVISOUL_R	0.88
Multiple Fillet	*C=C_ALFT_AL_ALFT_0	0.86
Select and Move Similar Objects	*C=C[SELECTSIMILARMODELSID_SELECT_MOVE_P]	0.89
Insert Table	*C=C_INSERTTABLE(Insert, F, T1, T2)	0.14
Move Copy Previous	*C=C[MOVECOPY_P1_M0_C1]	0.43
Rotate Move Copy Previous	*C=C[MOVECOPY_P1_M0_C1]	0.43
Copy Rotate Previous	*C=C[MOVECOPY_P1_M0_C1]	0.39
Create Boundary on New Layer	*C=C_LAYER_M0=PL_BOUNDARY	0.41

## My Insight Types

My Insights Available for AutoCAD Users with Single-User Subscription

**Macro Recommendation**  
Have you considered using GRIPS to modify the length of a line? Based on the commands you use, you might benefit from using the Stretch option of grip editing.

**Command Recommender**  
Have you considered using GRIPS to modify the length of a line? Based on the commands you use, you might benefit from using the Stretch option of grip editing.

**Usage By Category**  
Your command use by category in the past 30 days

**Drawing Statistics**  
Named layouts might help to better organize your files for output. Many of your drawings may rely on model space to organize them for output. Named layouts and page

**Have You Tried Articles**  
When drawing in 2D, use the User Coordinate System (UCS) to make it easier to create objects that align with existing geometry

**Efficiency Booster**  
Learn how command aliases can enhance your productivity. You frequently use these commands from the ribbon. Using command aliases can help to improve your speed.

**App Performance**  
Median response time of AutoCAD in seconds (last 30 days)

**Upgrade Recommender**  
Based on your past usage of AutoCAD, you might benefit from the feature enhancements available in the latest release.

## Customers Comments

"This feature is very very useful when it comes to improving my overall drafting efficiency. Love it!"

"I've added the new improved MEASUREGEOM command to my repertoire. Powerful measuring tool."

"Very useful insights in order to manage licenses."

"Despite using AutoCAD for 30 years, I'm appreciating the tips. Sometimes I have overlooked a new command or just keep doing things the way I always have so I'm finding them valuable."

## What's Next

18

## Expanded Usage Reporting

**Most used skills**  
Your most used skills in November 2021.

Skill	Count	% of total	Commands used
Object Modification	100	25%	100/100
Open and Save Drawings	10	10%	10/10
Drawing Environment Customization	10	10%	10/10
Object Control	10	10%	10/10
Object Creation	10	10%	10/10
Dimensioning	10	10%	10/10
Annotation	10	10%	10/10
Object Properties	10	10%	10/10
Application Setup and Settings Mod.	10	10%	10/10
Navigation	10	10%	10/10

How do I read this?

- No commands: A related collection of commands
- Not used: Common, everyday commands that form the basis of most users' usage
- Least used: Targeted, less frequently used commands
- Most used: Rare commands that meet the needs of specific workflows
- Recommended

# Unlock your team's full potential with My Insights and Team Insights

## My Insights for Revit Users

**My Insights**  
PREVIEW

This monthly insights digest was created just for you based on how you use our products.

**Revit**

**RECENTLY VIEWED**  
Learn how keyboard shortcuts can enhance your productivity.  
You frequently start these commands from the ribbon, property palette, or other UI. Using keyboard shortcuts can help to improve your speed.

View Range	Command Count	Default Viewport
2D	206	16
3D	459	16
4D	47	16
5D	16	16
6D	30	16

**RECENTLY VIEWED**  
You have recently been exporting PDF and/or printing sheets from your models. Did you know in Revit 2022 you can control the order of PDF exports and printed sheets?

**ABOUT YOUR TEAM**  
You have printed views and sheets and/or exported many PDFs recently. Have you tried using shared views instead? Share views to the cloud with project stakeholders instead of exporting PDFs or printing.

**ABOUT YOUR TEAM**  
You've created more than 12 In-Place Families in the past month.  
Using too many In-Place Families in the project may cause performance issue. Click learn more to find out the potential performance impact and alternative options.
