Description

3ds Max Plug-in – Civil View

A complete guide to using the Civil View plug-in within 3ds Max. Turn your boring road or site project into a real, animated scene. With just a few clicks, your project will turn from a plain Jane 2D model, into a robust, visually appealing scene in 3D.

A basic knowledge of Civil 3D is recommended. You do not need to know how to use 3ds Max.

Learning Objectives

This demonstration will guide you through the steps to create a lively scene within 3ds Max. At the end of this class you will be able to…

- Import data into 3ds Max
- Set up a scene using Civil View in 3ds Max
- Add 3D contect to model using Civil View
- Animate the scent in 3ds Max using Civil View
