# About this class

This fun class will focus on deciding on the best command in **AutoCAD**. In a process based on the World Cup format, we will determine group winners to qualify for knockout stages. Let's discover some hidden and unknown command gems. So, if OVERKILL is your favourite, or maybe MOCORO, then it's time to decide once and for all. If you want to attend something a bit different and interactive, this is the class for you. The class will conclude with a trophy presentation to the winning command.
