

Deploy so fast and easy with PDQ Deploy

Darren Behner / Lex Hansen

AS321545

About the Speaker

Darren Behner

Started in the industry in 1999, working for small commercial firm doing small scale projects. After 2008 I spent some time on the manufacture side of BIM with Arcadia Inc. In 2015 went back to the Architectural side and am currently the IT / BIM Manager for Nelsen Partners a large scale mixed use / design firm based in Austin, TX. My responsibilities include BIM implementation and training for the firm's Architectural design software, including AutoCAD, Revit and Navisworks.

About the Co Speaker

Lex Hansen

Has been in the IT industry for about 20 years and have experience with system administration, programing, networking, and IT management. My passions lie in enterprise systems engineering. My job at PDQ.com is helping system admins automate software installations and third party patch management.

PREREQUISITE

HIDDEN SHARES

A must have this is where files are staged and run locally

GROUP POLICY

Not required, however highly recommended depending on your environment.

WOL

Helpful for afterhours and remote access

Demo

How much time was saved

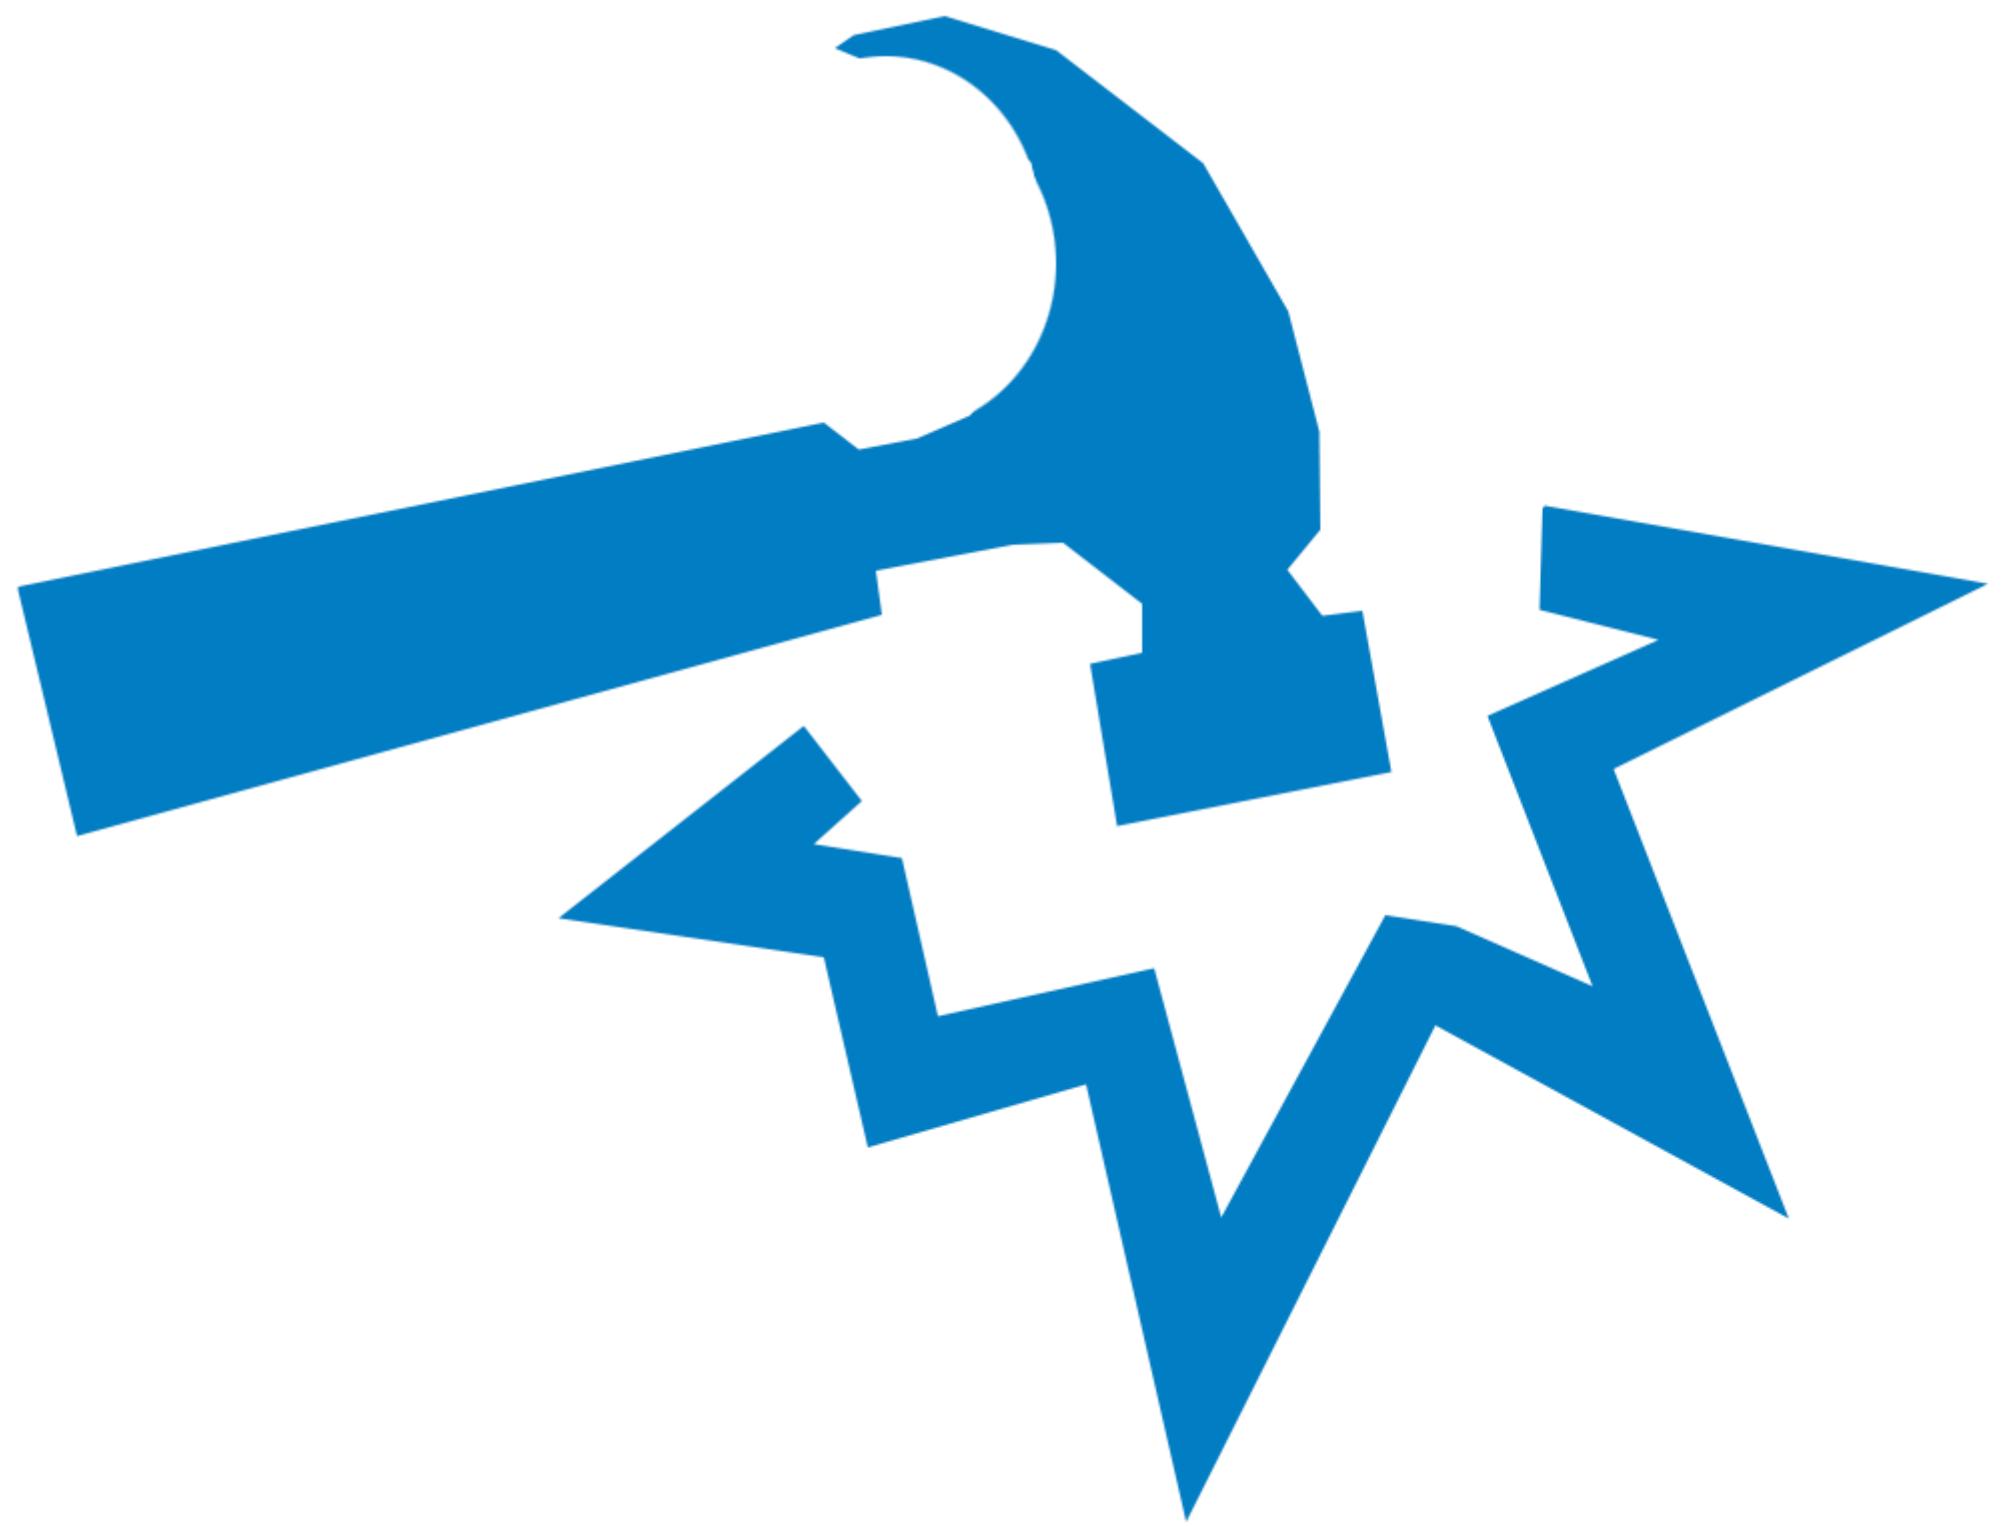

Your time may vary due to network conditions or network environments

Nail it

before you

Scale it

Stages

STAGE A

PREPARE

Create deployments,
download MSI's, Utilize
switches and XML files.

STAGE B

IDENTIFY

Know who you are deploying
to before rollout, Group like
type rolls, Support staff vs
Production vs Graphic's.

STAGE C

REPORT

Review where you were
successful and what was
missed.

Have a plan to circle back and
keep everyone together.

STAGE D

EFFICIENCY

The more you utilize the tool
the more time you recover to
complete other tasks.

Monitor deploy times vs seat
time.
