

Why I Chose Premium Plan for My Business

Tirtha Chavan | Autodesk

Jessica Steele-Hardin | tvsdesign

Eric Quinn | C&S Companies

Safe harbor statement

This presentation may contain forward-looking statements about future results, performance or achievements, financial and otherwise, including statements regarding our guidance for our quarterly, annual and long-term financial results.

This presentation also may contain forward-looking statements about planned or future development efforts for our existing or new products and services. These statements are not intended to be a promise or guarantee of future delivery of products, services or features but merely reflect our current plans, which may change. Purchasing decisions should not be made based upon reliance on these statements.

These statements reflect management's current expectations, estimates and assumptions based on the information currently available to Autodesk. These forward-looking statements are not guarantees of future performance and involve significant risks, uncertainties and other factors that may cause Autodesk's actual results, performance or achievements to be materially different from results, performance or achievements expressed or implied by the forward-looking statements contained in this presentation. A discussion of the factors that may affect future results is contained in Autodesk's most recent SEC Form 10-K and Form 10-Q filings, including descriptions of the risk factors that may impact Autodesk and the forward-looking statements made in this presentation. If this presentation is reviewed after the time and date this presentation was first recorded, even if it subsequently is made available by Autodesk, on its Web site or otherwise, this presentation may not contain current or accurate information.

Autodesk disclaims any obligation to update or revise any forward-looking statement based on new information, future events or otherwise.

Agenda

- Challenges you may be facing today
- How do the benefits of Premium address those challenges?
- How do the features in Premium compare to Standard?
- Customer spotlight: TVS Design and C&S Engineering
- More resources to determine if Premium is right for you
- Q&A

Are you facing any of these challenges?

I **don't have time** to manually create and assign access to every new user.

It **takes too long** to resolve critical support cases, causing downtime.

I don't know **which users need access** and if I have an opportunity to optimize.

I want to **purchase centrally** for all my employees.

We have company and client **security standards** that require SSO.

Standard vs. Premium: Top feature summary

	Standard	Premium
SECURITY / ADMIN:	<ul style="list-style-type: none">■ 2-step verification	<ul style="list-style-type: none">■ Single sign-on (SSO)
REPORTING:	<ul style="list-style-type: none">■ Product usage reporting	<ul style="list-style-type: none">■ Product usage reporting with user details
SUPPORT:	<ul style="list-style-type: none">■ 8x5 live support	<ul style="list-style-type: none">■ 24x7 live support
GLOBAL USE:	<ul style="list-style-type: none">■ Global Travel Rights	<ul style="list-style-type: none">■ Centralized purchasing

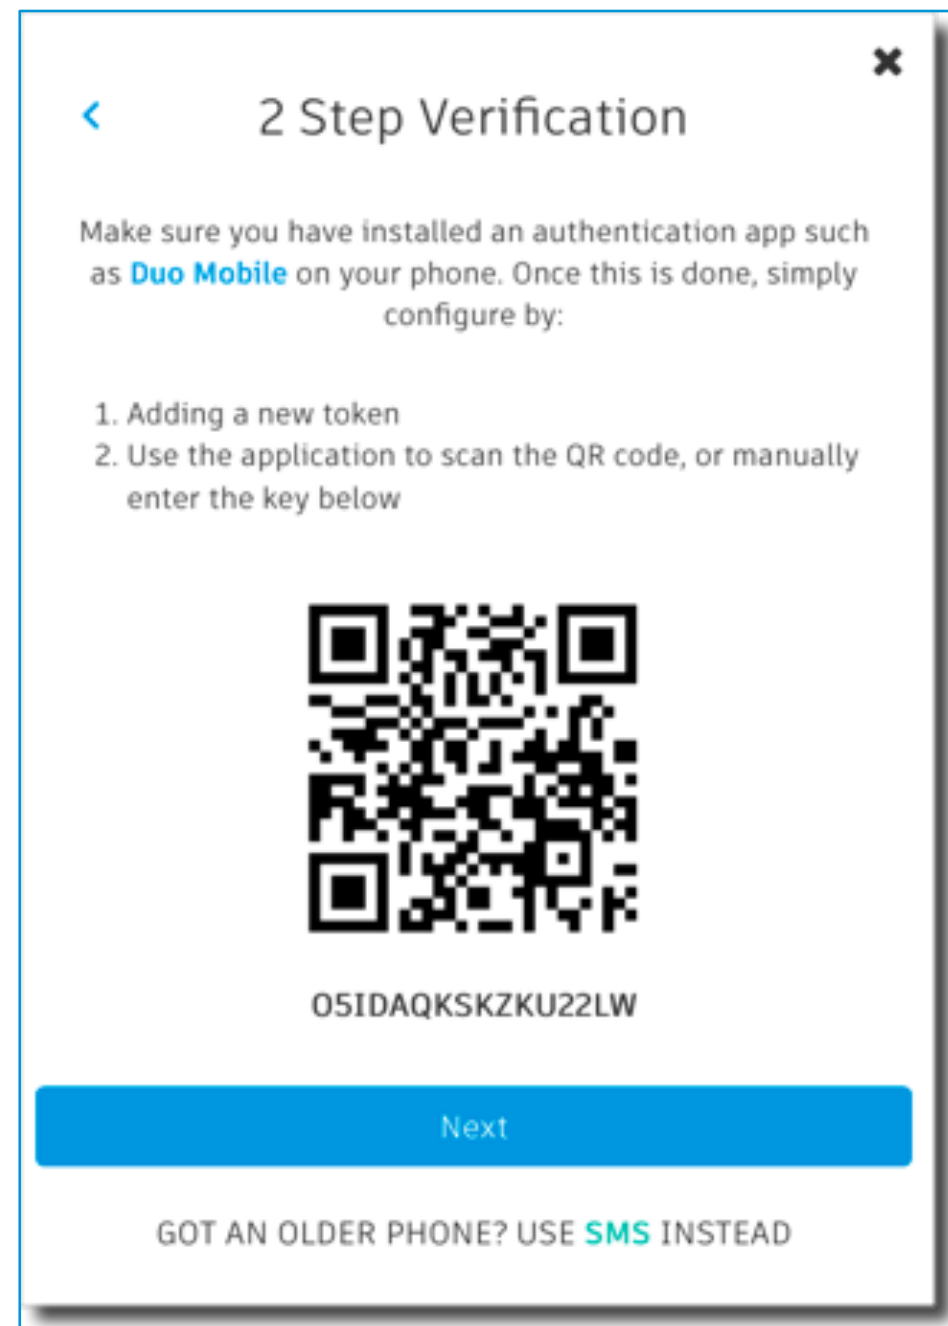

Available in Standard and Premium

2-step verification

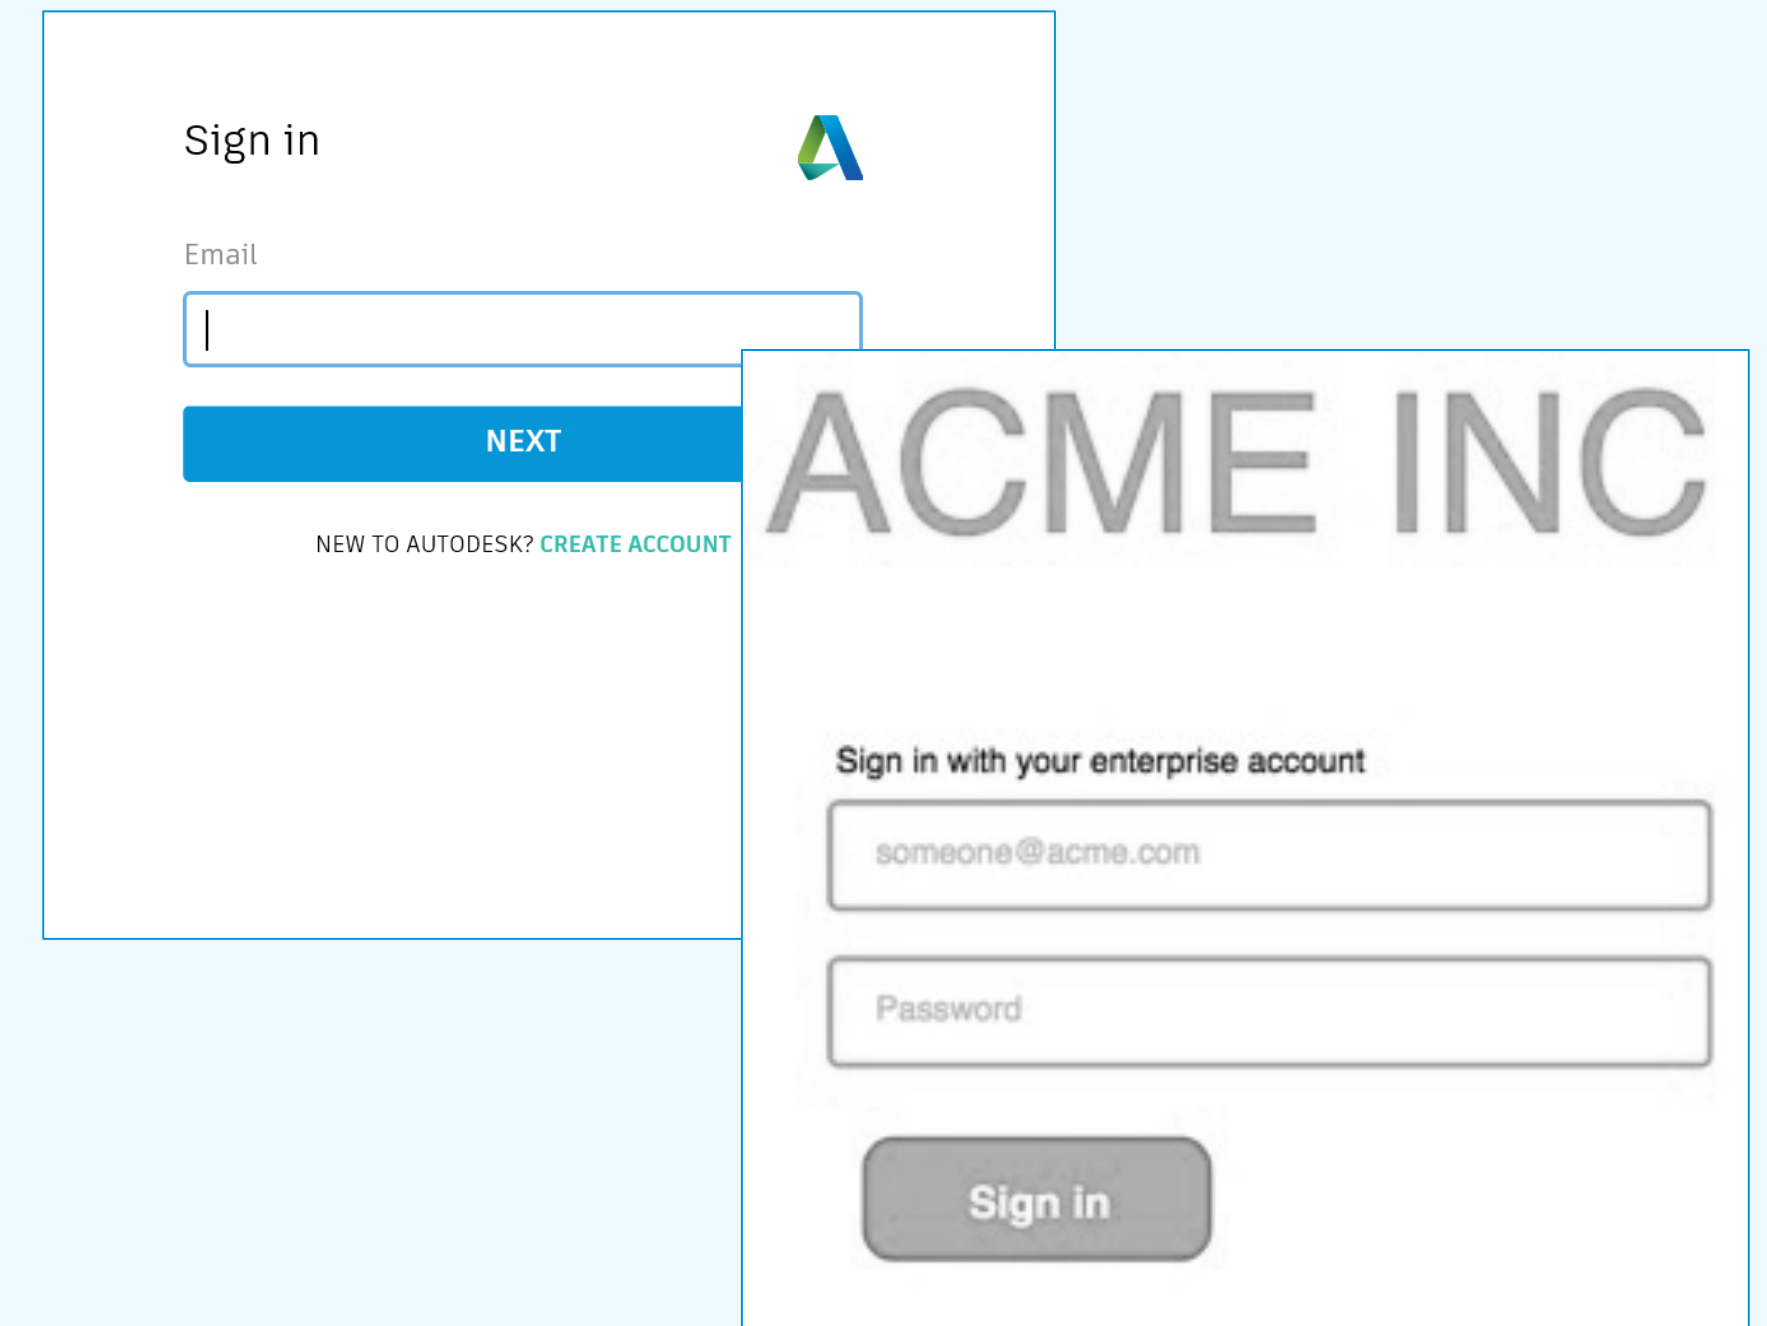

VS.

Only available in Premium

Single sign-on (SSO)

Add an extra layer of security to your Autodesk Account by requiring a generated security code at login.

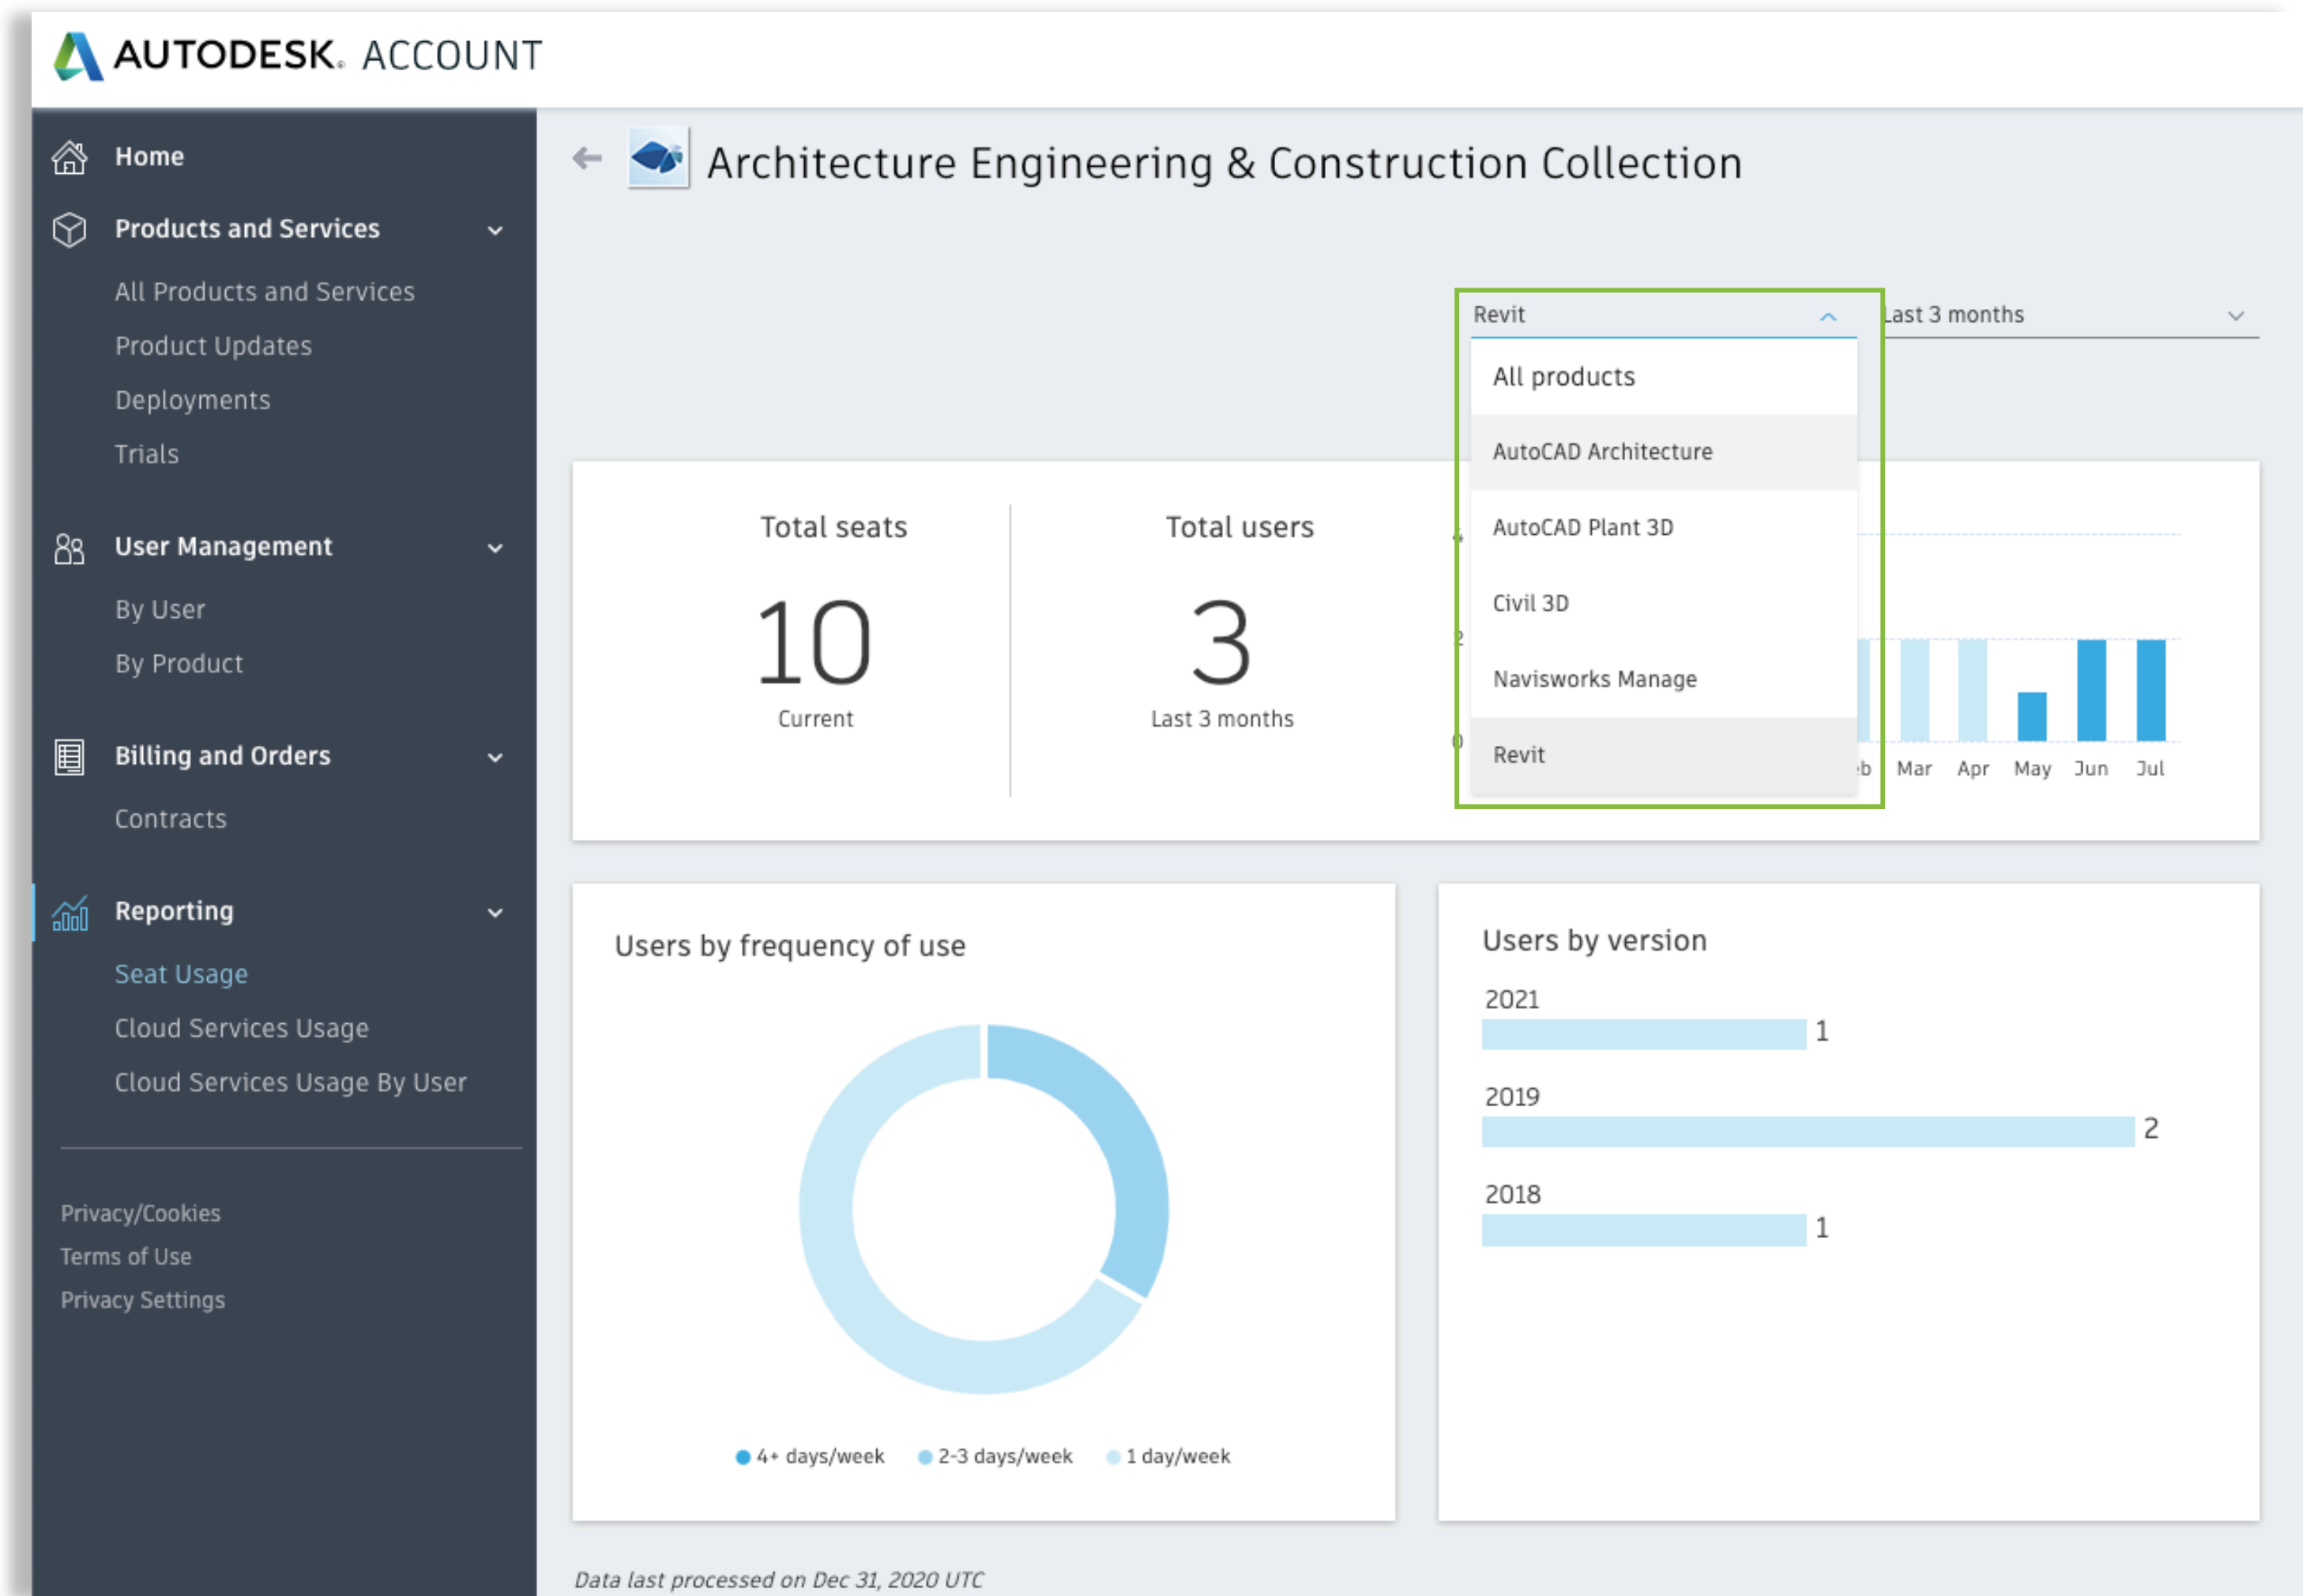

Use company network credentials to sign in and have users automatically added to your user list upon their first sign in. SSO enables users to access all applications through a first sign-on.

Seat usage reporting on the Standard plan

All admins can now view “Summary” and “By Product” usage reporting in Seat Usage and export this data to a CSV

Under the “By Product” view, you can see an aggregate summary of how many users per day have used each product.

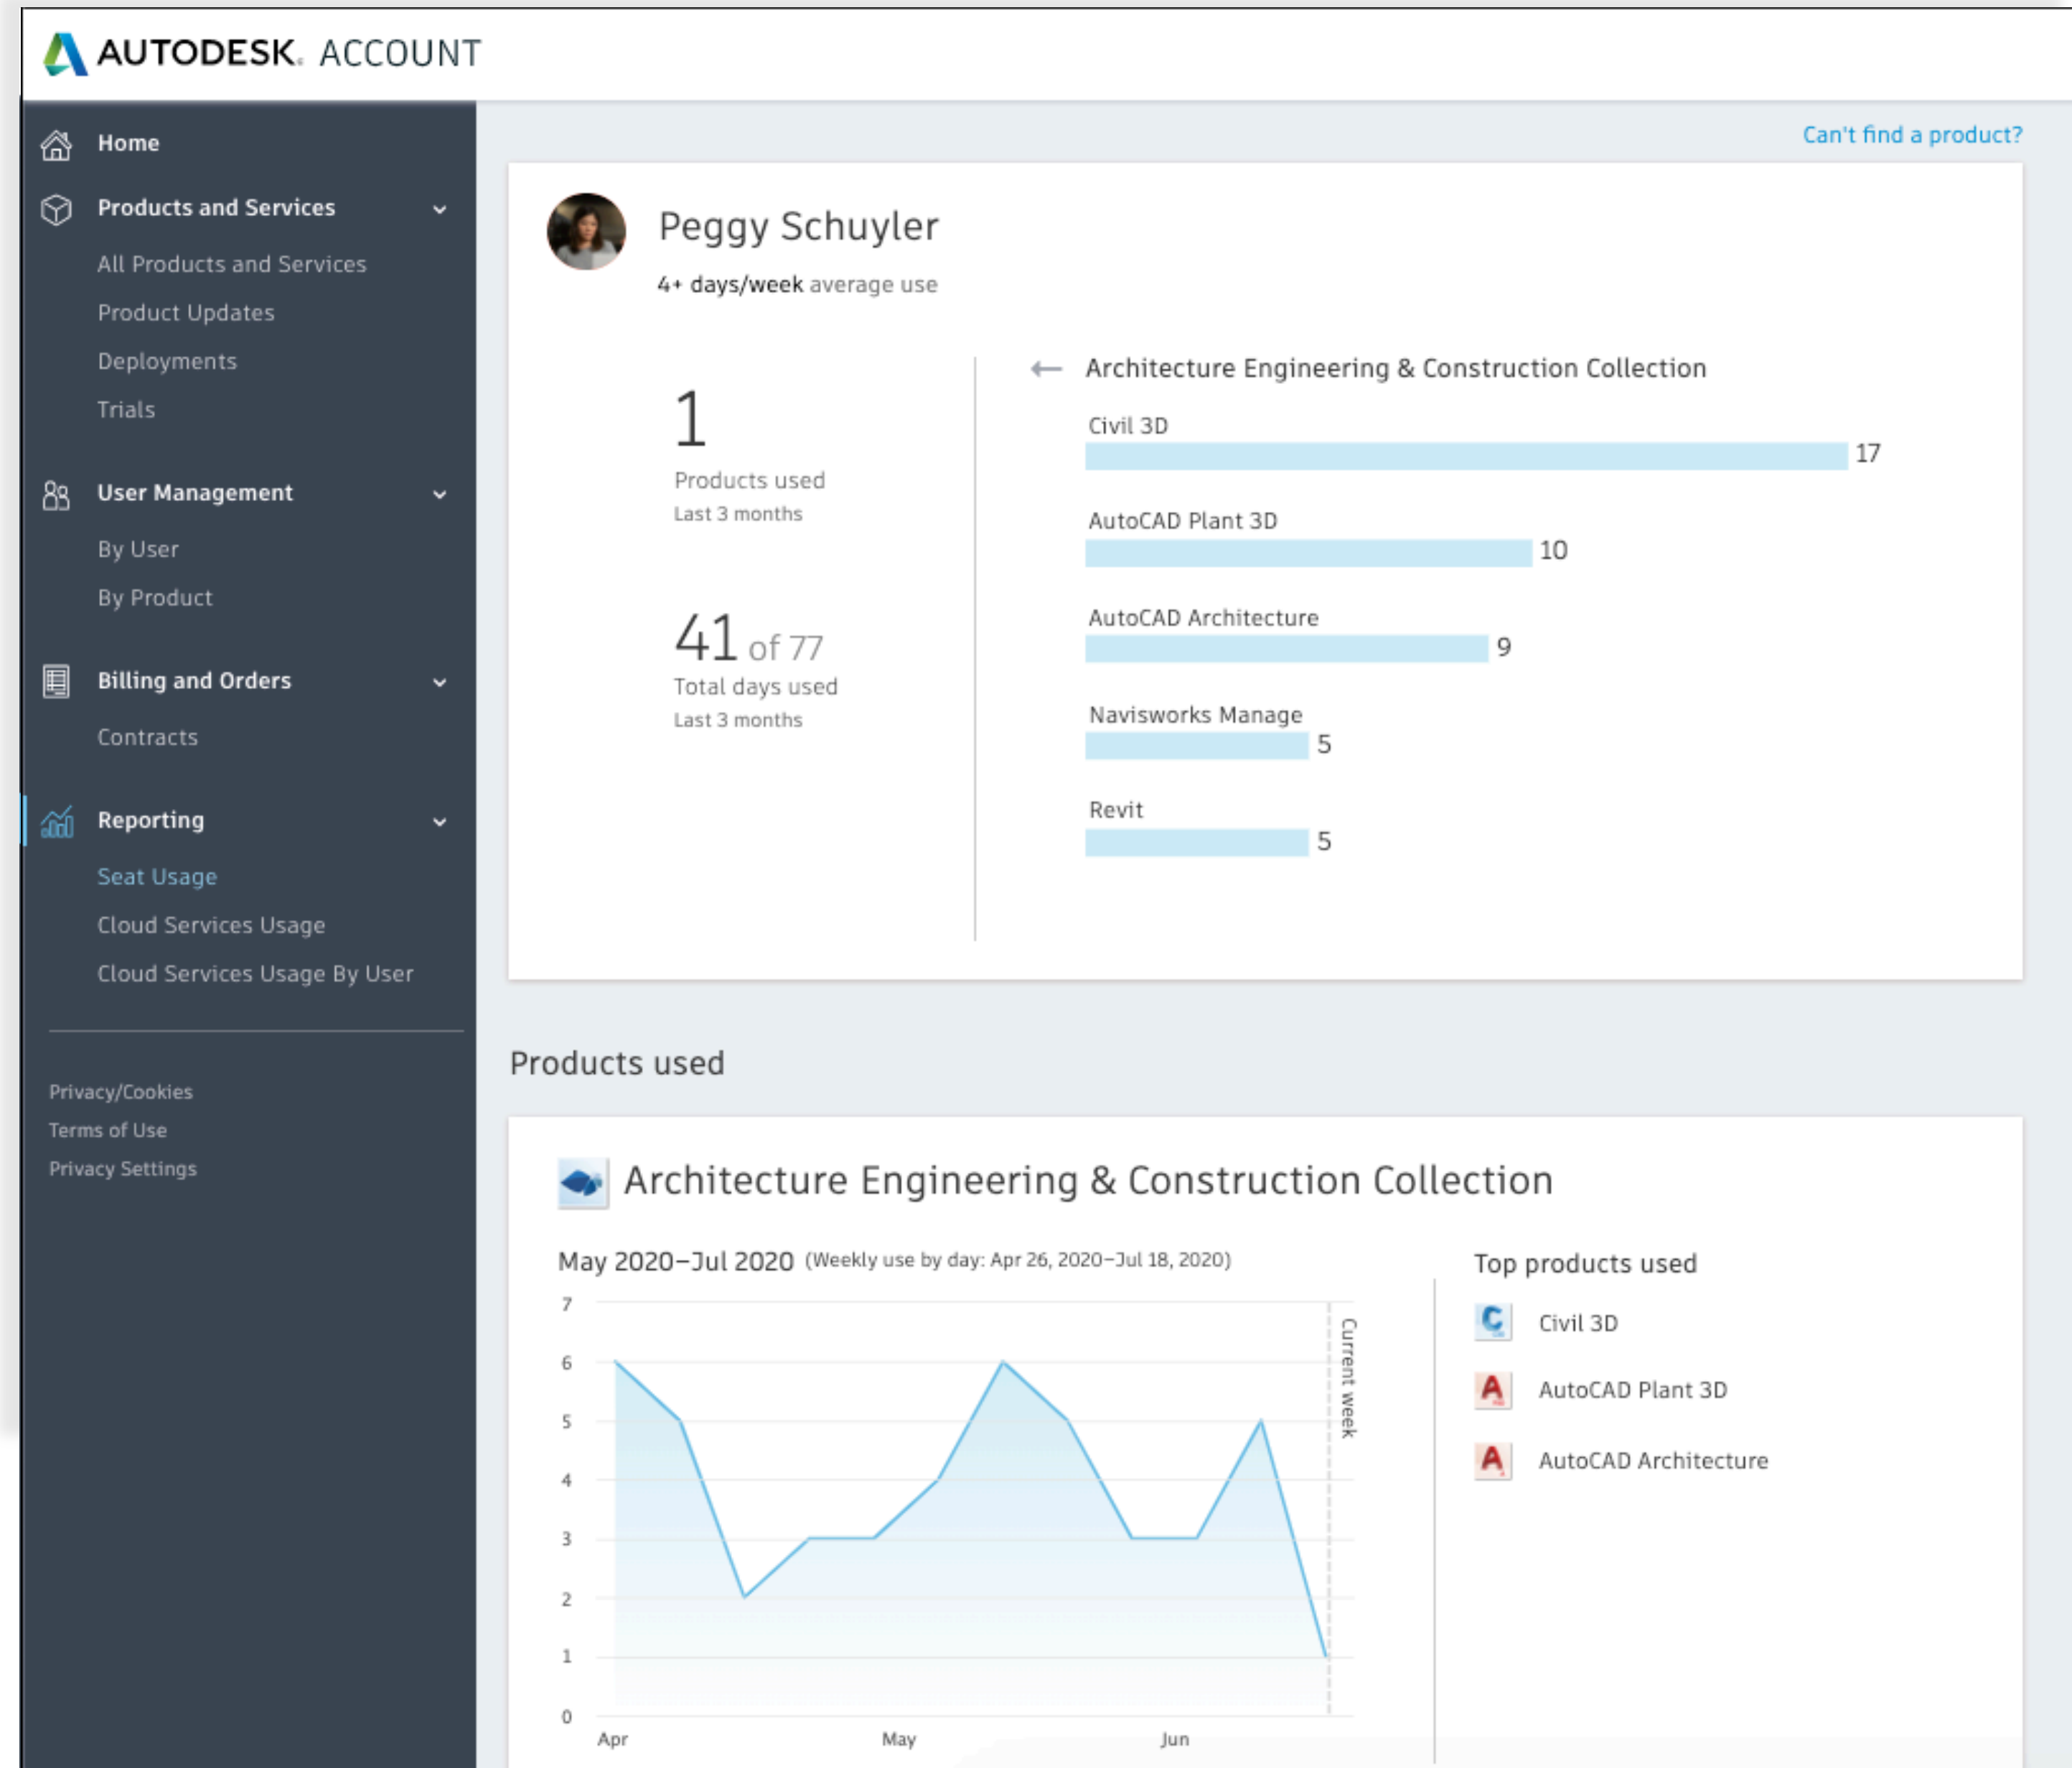

By clicking on a specific product, you can see details such as frequency of use. For collections, you can see overall collection usage and individual products within it.

Seat usage reporting on the Premium plan

On the Premium plan, admins also have “By user” reporting, which shows frequency of use by an individual user.

The admin can then click on a user for user-specific details such as products used, and usage frequency overtime. If using a collection, you can see aggregate and product-level details.

24x7 live support

Connect with a technical specialist any time, how you want (chat, case, or call)

Overview

What is AutoCAD?

AutoCAD® is computer-aided design (CAD) software that architects, engineers, and construction professionals rely on to create precise 2D and 3D drawings.

- Draft, annotate, and design 2D geometry and 3D models with solids, surfaces, and mesh objects
- Automate tasks such as comparing drawings, adding blocks, creating schedules, and more
- Customize with add-on apps and APIs

Centralized purchasing

Parent company can buy and assign subscriptions globally for all its subsidiaries

Architecture, Planning, and Design firm

Jessica Steele-Hardin

Director of Technology and Operations

- With TVS since 2018
- Manages all Technology Operations
- Background in Operations, IT, BIM and Architecture

About tvsgesign

- Headquartered in Atlanta, GA; with additional offices in Los Angeles, CA, Tampa, FL, and Shanghai, China.
- Innovative and forward thinking, recognized with over 300 Design Awards

Recent Projects:

- Interiors at Mercedes-Benz Stadium Clubs in Atlanta
- Atlanta United Training Center
- Las Vegas Convention Center Expansion
- Jacob Javits Convention Center

Q&A

What's on the Roadmap for Premium?

3-year Term Option

Choose 3-year Premium
term for your 3-year
product subscriptions

Active Directory/ Group Sync

Admins Can sync Active
directory with Autodesk
groups for automated
user creation and
assignment

Learning Accelerators

On-demand video
tutorials to get the most
out of Your Autodesk
plan

How can I upgrade to Premium?

Confirm you have at least 50 subscriptions with single-user access on eligible products*

Check seat usage reporting in Autodesk Account to see the total number of subscriptions to upgrade

Contact your Autodesk representative or authorized reseller to get a quote

*Notable unsupported products include BIM 360, Shotgun. See full supported product list on [Autodesk Knowledge Network](#).

Before you go

To find out more:

Learn about the offers and view a customer video.
