10 Ways a Forge SI Can Help You

Sanjana Chand

Developer Marketing Manager, Forge | @sanjanachand

What is Forge?

The Autodesk Forge Platform

The Forge Platform offers APIs and services that help you access and use your design and engineering data via the cloud.

Forge Systems Integrators were Trained by Autodesk experts. These certified partners can help you deploy your custom Forge-powered solutions, systems integrations, and more.

Whether you're a software developer or business owner, Forge APIs can help you achieve your business goals.

Autodesk Forge System Integrators

Featured SIs

TeamCAD (1:34-6:10)

Techture (06:11-10:22)

Piro CIE (10:23-13:38)

ofcdesk (13:40-15:03)

Capgemini (15:05-17:31)

Xinaps (17:32-20:41)

IMAGINiT (20:43-24:44)

CCTech (24:45-29:54)

SIVAR (29:55-36:09)

SolidCAD (36:11-38:10)

Forge Systems Integrators

TeamCAD

Serbia

An Autodesk Gold Partner and consulting company focused on BIM & Manufacturing consulting, application development, digital twins, and more.

They've used Forge to build solutions for BIM, Facilities Management, Product Configurators, and Product Data Management.

Get in touch with TeamCAD

vladimir.gutesa@teamcad.rs

Techture

India

A consulting firm working to provide collaborative solutions in the AEC industry.
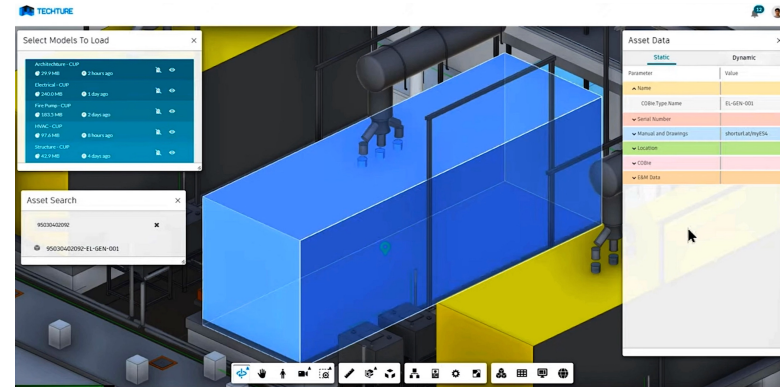

They used BIM 360 APIs to bring in models from Autodesk Construction Cloud, and leveraged a number of Forge APIs to provide a custom viewing experience while consolidating their data.

TECHTURE
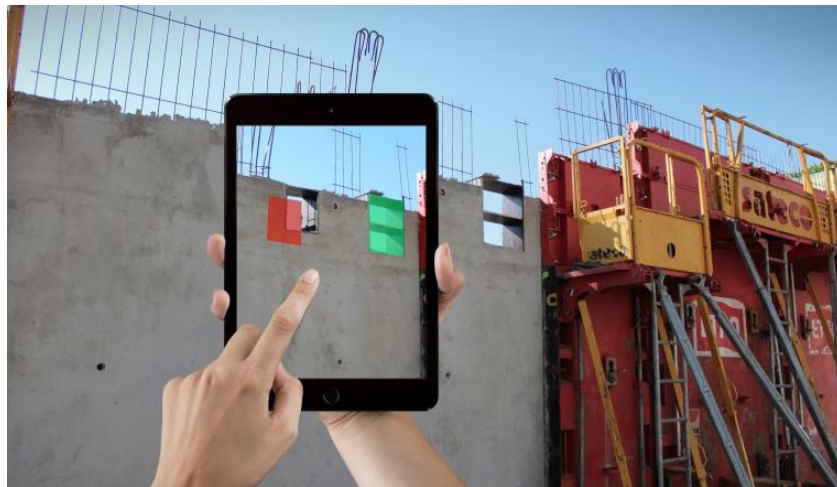

ISO 9001:2015Certified

Piro CIE

France

IT developments for 3D models at various steps of the building lifecycle, from design to maintenance.

Piro CIE used Forge APIs to create a cloud-powered BIM 360 solution for their customer.

Get in touch with Piro CIE

https://piro-cie.fr

ofcdesk

USA, Brazil

Developing solutions for space planning, design, project tracking, and library and content management.

They built a product configurator that is cloud-based and powered using Forge APIs.

ofcdesk
bim better

Capgemini

France

Global Systems Integrator delivering services around digital transformation, integration, custom development, and change management.

Capgemini built its Reflect-IoD platform on Forge APIs and services.

https://capgemini.com

Reflect^{IoD}

Creates the **Digital Twin** of your buildings and infrastructures

Enables :
- **Operational efficiency**
- **Data-centric collaboration**

across the asset lifecycle
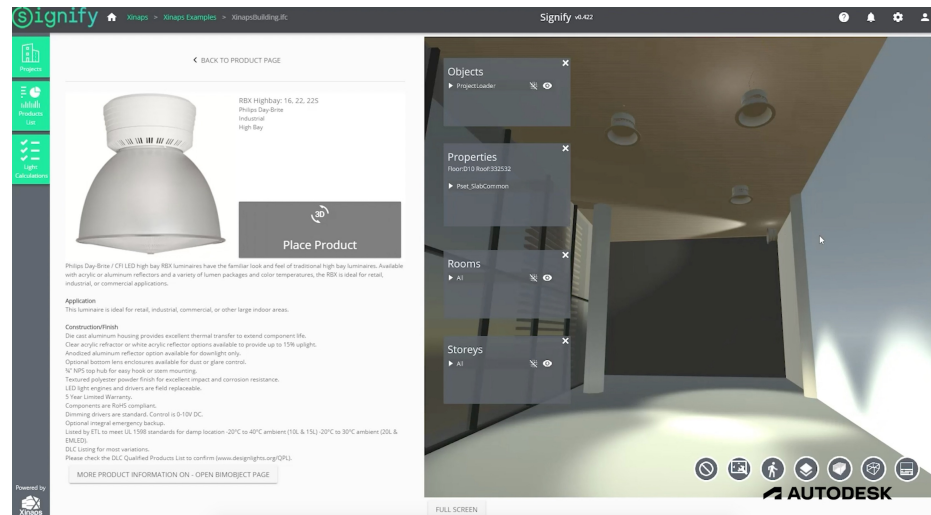

Xinaps

The Netherlands

Development services for customers within the AEC industry.

Xinaps integrated and automated the design process for their customer, using the Forge Design Automation APIs.

Get in touch with Xinaps
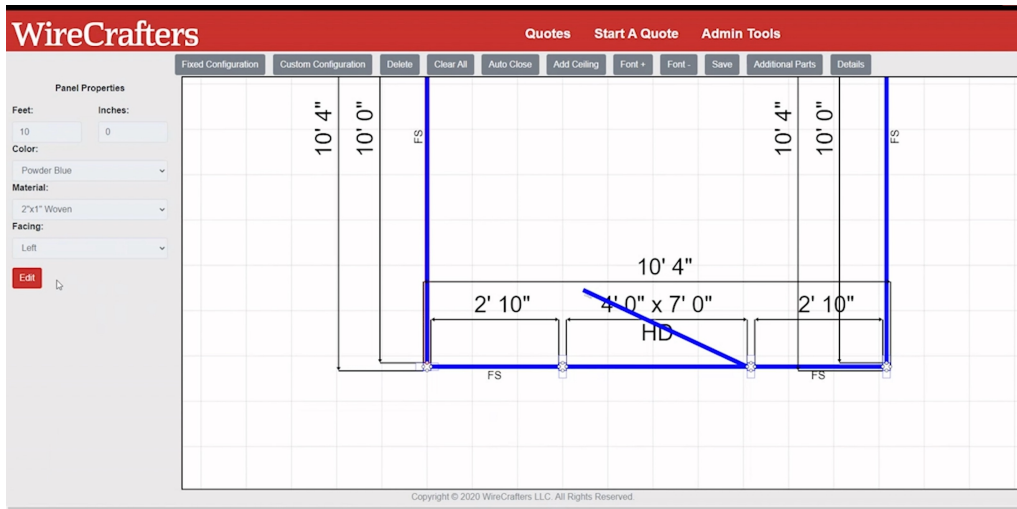

info@xinaps.com

IMAGINiT Technologies

USA

Improving efficiency, reducing operating costs, and increasing customer revenue.

IMAGINiT created a Forge solution for their customer WireCrafters to help alleviate workflow bottlenecks.

tangert@rand.com

CCTech

India

CCTech focuses on CAD application development using the Forge platform.

They just launched their new product, Autonomous HVAC CFD.

Get in touch with CCTech
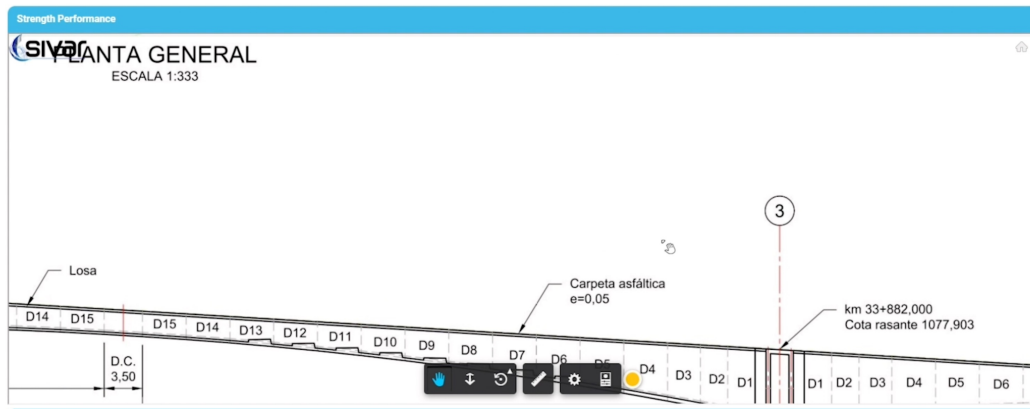

sandip@cctech.co.in

SIVAR

Colombia

Tailored technological solutions in the Engineering and Construction industries.

SIVAR uses Autodesk Forge to capture and visualize IoT data through 2D and 3D models.

Get in touch with SIVAR
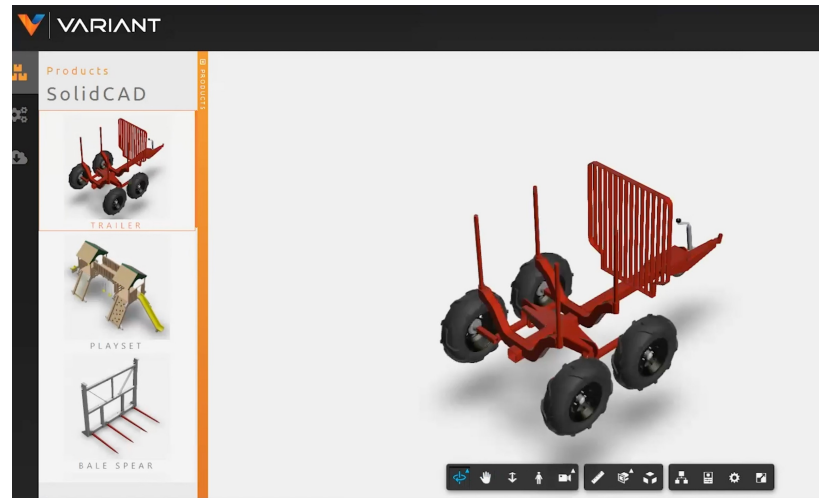

sales@sivargroup.com

SolidCAD

Canada

Authorized Autodesk training center, specializing in technology and services that support multiple industries, including AEC and Manufacturing.

SolidCAD built a solution called Variant, a product configurator they built for customers in the manufacturing industry.
