# MA2027: The Good, The Bad and the Cloudy: (SaaS) AUTODESK® Software as a Service Defined

Tim Bourdois

Aluminum Curtainwall Systems - NetWise Computer Services,
Director of Technology & Development

# Class summary

As with many software as a service (SaaS) providers, Autodesk offers products that support cloud-based collaboration and enable application deliverables right to your desktop or mobile device. As customers, we need to understand what these tools can do for us and how to apply them to our corporate needs. What does Autodesk® PLM 360 cloud-based data management look like to our company? Will Autodesk® BIM 360™ Field or Autodesk BIM 360™ Glue® cloud-based software help us to better manage site or subcontractor products and deliverables? How can we capitalize on Autodesk® Fusion 360™ software for project-based collaboration between manufacturers and construction teams to solve real-world problems? What about mobile apps, such as Autodesk® FormIt™ for site-based problem description and resolution for project managers? What does it really look like to be able to access any of my work from anywhere: at my desk, in the boardroom, or what have you? Join us for a panel discussion on these powerful new technologies.

# Questions for our Panelists

If you're a shy person or not comfortable with public speaking, let's use some cloud technology right here in the class.  Collaborate with us via Twitter

Tweet me:     @netwisecanada
hashtag:       #au2013ma2027

# Key learning objectives

At the end of this class, you will be able to:

- Describe Autodesk cloud and collaborative offerings
- Explain what cloud-based collaboration tools can do
- Apply use case scenarios for cloud- and mobile-based applications
- Better identify your uses and needs and then describe your use cases to your manager or vendor

AUTODESK.

# Describe Autodesk Cloud and Collaborative product offerings

# Explain what cloud based collaboration tools can do

# Apply use case scenarios for cloud and mobile based applications

AUTODESK.

Better identify your uses and needs and then describe your use cases to your manager or vendor

# Please Fill Out Your Surveys

Make sure your voice is heard by completing your surveys!

Please take the time to complete your survey for this and every class you attend at Autodesk University.

Autodesk uses this information to know what classes to offer in the future.
