

MSF11215-L-Introduction to Fabrication ESTmep

Lyle Janda and Greg Murphy

Applied Software - FAB Specialist Murphy Company –Supervisor – BIM Technology

Class summary

- This is an introductory course for Fabrication ESTmep software. It will cover the most important concepts and common commands necessary to use Fabrication ESTmep software at a fundamental level. The objective of this course is to introduce the essential functionality of Fabrication ESTmep software so that a new user can generate accurate cost estimates from imported models and traced drawings. We will cover how to navigate through Fabrication ESTmep software, basic reporting, understanding pricing, and best practices.

Key learning objectives

At the end of this class, you will be able to:

- Learn how to navigate through Fabrication ESTmep
- Discover pricing for MEP Jobs
- Discover how to use Reports
- Learn how to create a model using on screen takeoff
- Learn how to use Estimate Summary
