

MSF11653 - Database Management from a Database Manager's Point of View

Greg Murphy and William Tucker

Murphy Co. – Supervisor BIM Technology & Support / Comfort Systems - BIM Trainer and Product Specialist

Twitter: @gamurphy64

Class summary

Learn how to manage content for Autodesk Fabrication Solutions from a database manager's point of view. We will dive into how to apply fitting dimensions to product-listed information for accurate dimensional content and apply connectors. Then learn how to apply estimating information for reporting of information to be used for ordering, estimating, and job tracking.

Key learning objectives

At the end of this class, you will be able to:

- Discover how Fitting Dimensions work
- Discover how connectors are applied to content
- Discover how Estimating Data is applied to Fittings
- Discover how the products integrate with each other

Be heard! Provide AU session feedback.

- Via the Survey Stations, email or mobile device.
- AU 2016 passes awarded daily!
- Give your feedback after each session.
- Give instructors feedback in real-time.

Forget to take notes? No problem!

After AU visit:

AutodeskUniversity.com

Click on **My AU** to find:

- Class Recordings
- Presentations
- Handouts

All of your sessions will be there to enjoy again and again.

More Questions? Visit the AU Answer Bar

- Seek answers to all of your technical product questions by visiting the **Answer Bar**.
- Open daily 8am-10am and Noon-6pm and located just outside of Hall C on Level 2.
- Staffed by Autodesk developers, QA, & support engineers ready to help you through your most challenging technical questions.
