Dynamo for Contractors:
Practical Applications with Dynamo for Revit

Marcello Sgambelluri

BIM Director – John A. Martin & Associates
Twitter: @marcellosgamb

Class Summary

Extracting data from Revit software and changing existing data within Revit models is exactly what contractor's need, and Dynamo software is perfect for these types of jobs. There is no prior Dynamo or Programming experience needed. Only Revit experience is required

Key learning objectives

At the end of this class, you will be able to:

- Learn to program in Dynamo to extract data from Revit models for construction applications
- Learn to program in Dynamo to modify Revit models for construction
- Learn to program in Dynamo to create automated workflows within Revit for contractors
- Learn to read and write Revit model data to Excel
