

# MSF10854-L From Design to Fabrication: An Introduction to Fabrication in Revit MEP

Thomas Gregersen

Sr. Technical Sales Specialist AEC NE

Twitter: @TVG271069

# Class summary

This will be a hands-on introduction to the world of fabrication with Revit MEP software. Familiarize yourself with the fabrication possibilities introduced in Revit MEP 2016 software, such as how to manage and create fabrication content. We will also take a look into possible Building Information Modeling (BIM) workflows for fabricators.

# Key learning objectives

At the end of this class, you will be able to:

- Learn how to utilize the fabrication abilities in Revit MEP
- Learn how to collaborate with existing fabrication solutions
- Learn how to manage and create fabrication content
- Discover the differences between families and fabrication parts

# Hands-on
