Features and Functions in AutoCAD® P&ID

What CAD functions are you missing, but also what data related features would you like to see?

Features and Functions in AutoCAD® Plant 3D

What improvements would you like to see for the creation of your structure, equipment and piping elements? What about deliverables?

P&ID ↔ 3D Collaboration

Do you need a closer workflow between your P&ID and 3D piping drawings?

Collaboration

What other Autodesk® products do you use in combination with AutoCAD® P&ID/Plant 3D and would you like it to work? What 3rd party products do you want to integrate?

Project configuration

What features do you think are needed to speed up the configuration of a project?

Others

Well, you will think of something.
